

Yuanta

Savings Bank Philippines, Inc.

Yuanta Savings Bank Philippines, Inc.

**ANNUAL REPORT
AS OF DECEMBER 31, 2025**

I. CORPORATE POLICY

Corporate Profile

Yuanta Savings Bank Philippines, Inc. (the Bank) was formerly known as TongYang Savings Bank, Inc. It was formally registered in the Securities and Exchange Commission (SEC) on 1 August 1997 and was granted its thrift bank license by the Bangko Sentral ng Pilipinas on 24 October 1997. The Bank started its commercial operations on 5 November 1997.

To further expand its banking operations, the Bangko Sentral ng Pilipinas granted the Bank its Foreign Currency Deposit Unit (FCDU) License on 14 June 2007 giving the Bank the authority to accept foreign currency deposits.

On 5 August 2015, the Bank became a wholly owned subsidiary of Yuanta Commercial Bank in Taiwan, a company under the umbrella of Yuanta Financial Holdings (a publicly listed in Taiwan) due to its acquisition of the 100% equity shares of the Bank from Yuanta Securities Korea Co., Ltd (formerly: TONGYANG Securities, Inc.).

On 18 July 2016, the SEC approved the change of its name from TongYang Savings Bank, Inc. to Yuanta Savings Bank Philippines, Inc.

The Bank caters traditional products and services such as deposits, loans, remittance, and foreign exchange. Its existing business model focuses on both corporate and retail banking for its lending and deposit operations.

It offers banking services to customers residing in Metro Manila and nearby provinces. The Bank's parent Company is one of best managed banks in Taiwan. Subsequently, the expertise of its parent company in the marketing and risk management system can be relayed to the Bank with the objectives of providing value to its stakeholders and customers.

Vision

Being part of the Yuanta Financial Holdings group in Taiwan, Yuanta Savings Bank Philippines adopts the core values of the conglomerate and is aspired to become a mid-tiered thrift bank in the Philippines in terms of asset scale through sound risk management and operational efficiency, serving primarily Filipinos, Koreans, and Taiwanese customers, driven by good corporate governance, integrity, professionalism, and excellent customer service.

Mission

To become a mid-tiered thrift bank in the Philippines and to create value for our clients, employees, and shareholders by:

1. Providing a broad range of excellent and value-added financial products and services to our customers;

2. Creating an environment of hardworking, competent, highly motivated and honest individuals by providing excellent career opportunities and professional development;
3. Maximizing shareholders value, taking advantages of its market niche to assist its stakeholders in creating wealth and achieving their financial dreams.

Corporate Values

1. Seize opportunities and build client wealth
2. Enhance performance and promote employee welfare
3. Create value and increase shareholders' return
4. Encourage teamwork and discipline in achieving our goals

For the year 2025, the Bank's net interest income increased by ₱1.7M from ₱123.4M in 2024 to ₱125.1M in 2025 mainly due to significant expansion in gross loans climbing by 79%. Meanwhile, interest expense on deposit liabilities grew by ₱9.4M due to increase in deposit liabilities amounting to ₱289.5M, 46% growth as compared with 2024.

As a result of the increase in deposit liabilities, the Bank's total assets for the year 2025 increased by ₱282.9M, 11% growth as compared with 2024.

The Bank's gross loans went up substantially by ₱892.5M from ₱1,125M in 2024 to ₱2,017.5M in 2025 as part of the Bank's strategic move to boost its core interest earning assets to generate stable income. Despite of the expansion in its loan portfolio, the Bank was able to maintain a strong minimum liquidity ratio (MLR) of 74.03% vis-à-vis prudential MLR of 20%, with total liquid assets stood at ₱776.8M.

The Bank has continuously maintained its strong capital position. Its solo basis capital adequacy ratio (CAR) and Tier 1 ratio were 79.91% and 79.09% as of 31 December 2025 respectively, which are significantly higher than the required 10%. Total qualifying capital was ₱1,938.707M. This comprised of ₱1,918.876M Common Equity Tier 1 capital and ₱19.831M Tier 2 capital (pertains to general loan loss provision).

Net tier 1 capital comprised of the following:

Tier 1 Capital	Amount (In Million PHP)
Paid up common stock	2,400.000
Additional paid-in capital	9.000
Retained earnings and undivided profits	(463.184)
Other Comprehensive Income	0.300
Sub-total	1,946.116
Deductions from Core Tier 1 Capital	
Total outstanding unsecured credit accommodations, both direct and indirect, to DOSRI, net of allowance for credit losses	0.222
Deferred tax asset, net of deferred tax liability	13.176
Other intangible assets, net	19.449

Defined benefit pension fund assets (liabilities)	(5.607)
Total Deductions	27.240
Total Common Equity Tier 1	1,918.876

The Bank’s credit risk-weighted asset was ₱2,254.556M while its operational risk-weighted asset was ₱171.636M (computed using the Basic Indicator Approach), with minimum capital requirements of ₱225.456M and ₱17.164M, respectively (computed based on the required 10% of the total credit and operational risk-weighted assets). No market risk weighted assets and market risk capital requirements were computed as of December 31, 2025.

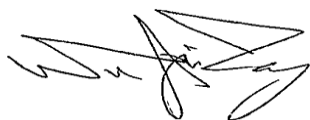

IV. CHAIRMAN’S MESSAGE

Continuing to deliver strong results, remain resilient, and embrace change.

In 2025, Yuanta Savings Bank (Philippines) (YSBP) remained resilient while facing many uncertainties. We continued to make great advances in various businesses to deliver strong results. Strict risk control and management policy still underscored our business operations amid domestic challenges, growing regional concerns, and global economic volatility surrounding the Philippines.

Looking forward to 2026, high geopolitical tensions in various parts of the world and international tariff changes will continue to present even greater uncertainties to our businesses. We believe that resilience remains crucial for facing existing and emerging risks. At the same time, advancements in AI are creating a structural shift in the way we work and how businesses operate, compete, and create value – and we are embracing it. We believe the responsible use of AI will help us drive operating efficiency, make faster, better decisions. We will embrace change with confidence, focus, and an innovative spirit. We are confident that we can continue to deliver strong results and create value for our stakeholders over the long term.

We have spurred growth while overcoming challenges in 2025. We have provided quality financial services to our customers and upheld corporate social responsibility. We look forward to 2026 with anticipation of building upon the improvements we have made to deliver even stronger results to the future earnings of YSBP and its business growth.

Allen Wu
Chairman

V. PRESIDENT'S REPORT

Dear shareholders and other stakeholders,

In 2025, the country faces economic volatility and currency pressures mainly driven by the continuous geopolitical tensions and domestic political and social issues. Against this uncertain environment, the Bank remained resilient and cautious in implementing its strategic objectives.

The Bank's gross loans for the year went up strikingly by 79% from ₱1,125M in 2024 to ₱2,017.5 in 2025 as part of the Bank's strategic move to boost its core interest earning assets, which will provide the momentum for a stable income source and enable the Bank to achieve the goal of a turnaround in the next few years. Meanwhile, its deposit liabilities also grew by 46% from ₱630M in 2024 to ₱919.5M in 2025 as a result of the its marketing activities, which generated funds to support the target for loan growth.

Despite the expansion in its loan portfolio, the Bank was able to maintain a strong Minimum Liquidity Ratio (MLR) of 74.03% vis-à-vis prudential MLR of 20%, with total liquid assets stood at ₱776.8M and managed its credit risks at a reasonable level with NPL ratio of 1.70% (6.04% for the thrift bank industry) during the year 2025. Moreover, the Bank has continuously maintained its strong capital position despite of the substantial growth in its loan portfolio. Its solo basis Capital Adequacy Ratio (CAR) and Tier 1 Ratio were 79.91% and 79.09% respectively, as of December 31, 2025, which are significantly higher than the required 10%.

To further increase its stable deposits and customer base, the Bank's re-accreditation with the Philippine Retirement Authority (PRA) Special Resident Retiree's Visa (SRRV) program took effect on February 2, 2026. Preparations are also underway to ensure that the Bank will be able to fully maximize the funds which may be generated from the future PRA accounts.

The safety and soundness of its operations have always been the Bank's utmost priorities. Apart from continuous investment of its resources in enhancing its operational efficiency, risk management and compliance systems to withstand the challenges brought about by the rapidly changing environment of the banking industry, the Bank also recognizes the potential of embedding environmental & social risk management systems to unlock growth opportunities, enhance risk management capabilities, and strengthen stakeholder relationships as part of its commitment to a sustainable future.

In March 2025, the Bank has completed the automation project of its Financial Reporting Package (FRP) and other BSP reports. The automation of the BSP Enhanced Comprehensive Credit and Equity Exposures Report (COCREE 2.0) is currently ongoing, and the automation of the BSP International Transactions Reporting Systems (ITRS) and PDIC regulatory reports will also follow.

Given the continuous growth in the Bank's loan portfolio and deposit liabilities as well as its constant improvements in its operational efficiency despite the ongoing economic volatility

and currency and inflation pressures, the Bank is cautiously optimistic that there are still opportunities for further growth in the banking business and will continue to monitor the effects of changes in the external environment and take prudent measures accordingly for the interest of its employees, shareholders and other stakeholders.

Regina V. Sagar
President and CEO

VI. CORPORATE GOVERNANCE

a. Overall Governance Framework

The business and operations of the Bank shall be conducted in accordance with the principles and best practices of good corporate governance, and exercising accountability, fairness and transparency across all operations and dealings. The Board of Directors, Management and staff members of the Bank commit themselves to these principles and policies, and acknowledge that the same will guide the Bank in attaining its corporate objectives.

The objectives of the Bank's corporate governance are as follows:

- Promoting appropriate ethics and values within the organization;
- Ensuring effective organizational performance management and accountability;
- Communicating risk and control information to appropriate areas of the organization; and
- Coordinating the activities of and communicating information among the board, external and internal auditors, and management.

The Board of Directors and shareholders, management and employees believe that corporate governance is a necessary component of sound strategic business management and for long-term shareholder value and that compliance with the principles of good governance emanates at the Board level. The Board considers it as their primary responsibility to foster the long-term success of the Bank and secure its sustained competitiveness in a manner consistent with the fiduciary responsibility, which it shall exercise in the best interest of the Bank and its shareholders. The Bank has formulated among others, the following policies and procedures to ensure observance of good corporate governance: (a) Corporate Governance Manual (b) Policy on Related Party Transactions (c) Guidelines on the Prevention of Conflict of Interest and Unsafe and Unsound Business Practices, (d) Policy on Selection, Nomination and Election of Directors, (e) Succession Management Policy for Key Positions, (f) Financial Consumer Protection Manual, (g) Whistle Blowing Policy, (h) Sustainable Finance Framework, (i) Environmental and Social Risk Management (ESRM) Policy, and (j) ESRMS Guidance Document.

b. Selection Process for the Board of Directors and Senior Management

Cognizant that a Director and Senior Management is a position of trust and confidence, the

Bank adheres to a selection process that ensures a mix of competent individuals at the controls of the Bank. The Director and Senior Management must be fit and proper for the said position with consideration on the following matters: integrity/probity, physical/mental fitness, competence, relevant education/financial literacy/training, possession of competencies relevant to the job, such as knowledge and experience, skills, diligence and independence of mind, and sufficiency of time to fully carry out responsibilities. The screening process is being conducted by the Bank's Board of Directors, Senior Management, and its parent company in accordance with the Bank's Selection Policy.

c. Board of Directors Responsibility

The Board of Directors leads in establishing the tone of good governance from the top and in setting corporate values, codes of conduct and other standards of appropriate behavior for itself, the Senior Management and Bank employees. It is primarily responsible for approving and overseeing the implementation of the Bank's strategic objectives, risk strategy, corporate governance and corporate values. The Board ensures expeditious resolution of compliance issues and consistent adoption of corporate governance policies and procedures. The Board is also responsible for monitoring and overseeing the performance of Senior Management.

The Board of Directors is responsible for approving the Bank's objectives and strategies, including long-term financial interests, its level of risk tolerance, and ability to manage risks effectively, and in overseeing management's implementation through a system for measuring performance against plans which includes the conduct of monthly business performance review and board meetings.

The Board also defines the Bank's corporate culture and values and establish a code of conduct and ethical standards in the Bank, and institutionalizes a system that will allow reporting of concerns or violations to an appropriate body through its present whistle blowing policy. The Board conducts the affairs of the Bank with a high degree of integrity and plays a leading role in establishing the Bank's corporate culture and values. It establishes, actively promotes, and communicates a culture of strong governance in the Bank, through adopted policies and displayed practices, ensuring that the Senior Management champion the desired values and conducts, and actively supports the Bank's Senior Management in its initiatives to enhance its corporate governance, risk management, and control processes through providing adequate resources and necessary trainings to its employees, and ensuring that the internal and external issues noted have been immediately acted upon.

The Chairperson of the Board of Directors provides leadership in the Board and ensure its effective functioning as a body, including maintaining a relationship of trust with members of the Board. He ensures that the meeting agenda focuses on strategic matters including discussion on risk appetites, and key governance concerns and ensures a sound decision making process.

d. Composition of the Board of Directors

f. Board Level Committees

Since the Bank is currently categorized as simple or non-complex banks, only audit committee and related party transaction committee are the constituted board level committees.

Mr. Arturo E. Manuel Jr., Mr. Senen L. Matoto, and Chi-Liang Hsiao are the members of the audit committee and related party transaction committee.

The audit committee is chaired by Mr. Senen L. Matoto. The audit committee oversees the Bank's financial reporting framework, monitors and evaluates the adequacy and effectiveness of the internal control system, oversees the internal and external audit function, oversees the implementation of corrective actions, investigates significant issues/concerns raised, and establishes a whistleblowing mechanism.

The related party transaction (RPT) committee is chaired by Mr. Arturo E. Manuel Jr. The

RPT committee is in charge of the evaluation on an ongoing basis existing relation between and among businesses and counterparties to ensure that all related parties are continuously identified, related party transactions (RPTs) are monitored, and subsequent changes in relationships with counterparties are captured. This committee is also in charge of evaluating all material RPTs under the approving authority of the board of directors to ensure that these are not undertaken on more favorable economic terms.

g. Board and Board Level Committee Meetings

In 2025, a total of 12 Board meetings, 11 Audit Committee meetings, and 2 Related Party Transaction (RPT) Committee meetings were held. The status of attendance of the directors in the Board and Board level committee meetings is shown below:

Name of Directors	Board	% of Attendance	Audit Committee	% of Attendance	RPT Committee	%
	Number of Meetings Attended		Number of Meetings Attended		Number of Meetings Attended	
Jin-Tang Wu	12	100%				
Regina V. Saga	12	100%				
Arturo E. Manuel Jr.	12	100%	11	100%	2	100%
Senen L. Matoto ^{1/}	12	100%	11	100%	1	50%
Chi-Liang Hsiao ^{2/}	11	100%	9	90%	2	100%

1/ - Director Senen L. Matoto abstained in 1 of the RPT Committee Meeting due to existing conflict of interest.

2/ - Elected as member of the Board and appointed as a member of the Audit Committee and RPT Committee on January 15, 2025.

h. Performance Assessment Program

The Bank conducts a semi-annual and annual performance appraisal for its Senior Management. The results of the established key performance indicators (KPI) for each department formed part of the Bank's performance appraisal system. Likewise, the Board of Directors, Board level Committees, and various Management Committees conduct an annual self-assessment to ensure the effectiveness in carrying out of their respective functions. The results are reported to the Board of Directors as the basis for improvement moving forward.

i. Orientation and Education Program

The duties and responsibilities of the Board of Directors have been discussed and duly acknowledged by the concerned directors prior to his/her appointment. All directors are required to undergo a one-day training on corporate governance conducted by an institution duly accredited by the BSP.

The Bank ensures the conduct of employee orientation program within 15 days upon boarding of the employees which includes discussion of the following matters: institutional

overview, responsibilities of all employees, employment requirements, process of employee regularization, work-related tips, fringe benefit program, employees code of conduct and the corresponding sanction for its violation, bank products and services, anti-money laundering, data privacy, financial consumer protection, and information security awareness, among others.

The Senior Management Committee (SRMANCOM) approves the Bank’s annual training program. This includes but not limited to in-house seminars on topics such as anti-money laundering, sound credit risk management, fraud risk and control awareness, information security, business continuity management, bank security, financial consumer protection, data privacy, customer service, cash operation training, related party transaction, and pandemic awareness and wellness seminar. Specific external training programs are also available to enhance the knowledge of the concerned employees in their respective field.

The following are the trainings attended by the directors and executive management for the year 2025:

Jin-Tang Wu, Chairman of the Board

j. Retirement and Succession Policy

An employee may be retired upon reaching the retirement age of 60 years old or sooner. The Bank offers retirement pay for its employees who have worked for at least five (5) consecutive years. An employee may be allowed by the Bank to continue to work on a case to case and yearly extension basis beyond the normal retirement date up to age 65. There is no retirement age set for the Bank's Board of Directors for as long as he/she is still fit and proper for the said position.

The Board of Directors shall be elected during the annual meeting of stockholders and shall hold office for one (1) year and until their qualified successors are elected. There is no limit set for the term of the members of the Board, except in the case of Independent Directors who shall only serve as such for a maximum cumulative term of nine (9) years. After which, the Independent Director shall be perpetually barred from serving as Independent Director in the Bank, but may continue to serve as regular Director. The nine (9) year maximum cumulative term for independent directors shall be reckoned from year 2012.

The Bank maintains a succession management plan for each department which is being updated at least every year or as needed, with primary consideration on the skills and competency, tenure and job level, performance rating, and derogatory record and financial accountability of the employee.

k. Remuneration Policy

The Bank pays salaries commensurate to the individual's qualifications and experience, nature of the job, employee performance, role, and level of responsibilities and activities with reference to an approved salary scale.

The Bank ensures that its compensation package for non-officers or rank and file employees are linked to both performance and the Bank's obligation under the law.

The remunerations of the Senior Management have been determined and approved by the Bank's parent company and the Board of Directors upon their appointment.

It is provided in the Bank's by-laws approved by the Board of Directors and Shareholders on 26 April 2024 and 15 May 2024, respectively, that in the absence of any provision in the by-laws fixing their compensation, the directors shall not receive any compensation in their capacity as such, except for reasonable per diems: Provided, however, That the stockholders representing a majority of the outstanding capital stock may grant directors with compensation and/or reasonable per diems and approve the amount thereof at a regular or special meeting.

In no case shall the total yearly compensation of directors exceed ten percent (10%) of the net income before income tax of the Corporation during the preceding year.

Directors shall not participate in the determination of their own per diems or compensation.

I. Related Party Transaction

The Bank has a Board approved Related Party Transactions (RPT) Policy. Under the said Policy, the Bank may enter into related party transactions provided, that these are done on an arm's length basis. The Bank shall exercise appropriate oversight and implement effective control systems for managing said exposures as these may potentially lead to abuses that are disadvantageous to the Bank and its depositors, creditors, fiduciary clients, and other stakeholders.

The Bank has a board-level Related Party Transactions Committee whose main function includes evaluation on an ongoing basis, existing relations between and among businesses and counterparties to ensure that all related parties are continuously identified, RPTs are monitored, and subsequent changes in relationships with counterparties (from non-related to related and vice versa) are captured; and evaluation of all material RPTs under the approving authority of the Board of Directors to ensure that these are not undertaken on more favorable economic terms and that no corporate or business resources of the bank are misappropriated or misapplied, and to determine any potential reputational risk issues that may arise as a result of or in connection with the transactions. The Committee is composed of three (3) members of the Board of Directors, with two (2) Independent Directors.

The Bank's RPT Policy captures a broader spectrum of transactions, covering not only those that give rise to credit and/or counterparty risks but also those that could pose material/special risk or potential abuse to the Bank and its stakeholders. Transactions that were entered into with an unrelated party that subsequently becomes a related party may be excluded from the limits and approval process required in Bank's RPT Policy, but still subject for evaluation to ensure that said transactions are still in arm's length terms. However, any alteration to the terms and conditions, or increase in exposure level, related to

these transactions after the non-related party becomes a related party shall subject the RPT to the requirements of the Bank's RPT policy.

The Management and Board of Directors shall ensure that RPTs are conducted in the regular course of business and not undertaken on more favorable economic terms (e.g., price, commissions, interest rates, fees, tenor, collateral requirement) to such related parties than similar transactions with non-related parties under similar circumstances. In this regard, an effective price discovery mechanism to ensure that transactions are engaged into at terms that promote the best interest of the Bank and its stakeholders shall be observed. The price discovery mechanism may include, but not limited to the following:

- Acquiring the services of an external expert;
- Opening the transaction to a bidding process. The minimum bid price shall be based on its market value;
- Publication of available property for sale;
- Determining the market value of the securities based on its market price;
- Conducting independent or internal appraisal as basis for the value of the personal and real properties. If the RPT transaction involves at least PHP3 Million pesos or if the property involved is not usual or a technical one such as machineries and equipment, independent appraisal is a must.

The Management and the Board shall also ensure the proper identification, prevention or management of potential or actual conflicts of interest which may arise. The members of the board, stockholders, and management shall disclose to the board whether they directly, indirectly or on behalf of third parties, have a financial interest in any transaction or matter affecting the Bank. Directors and officers with personal interest in the transaction shall abstain from the discussion, approval and management of such transaction or matter affecting the Bank.

All Bank officers and directors shall execute an Oath of Office to ensure proper identification, prevention or management of conflict of interest. All members of the Credit Committee shall also execute an Oath of Office to avoid conflict of interest in any loan transactions which they approved. The Bank's employee code of conduct also includes provisions for conflict of interest which incorporates the corresponding employee disciplinary action in case of violation.

The Bank did not enter into related party transactions in 2025, except for fringe benefit loans to officers with outstanding principal balance of ₱222,222.15 as of 31 December 2025, and deposits from key management personnel with outstanding balance of ₱5,432,908 as of 31 December 2025.

m. Self-Assessment Functions

The Bank has an independent audit and compliance functions, through which the Bank's Board of Directors, Senior Management, and Stockholders may be provided with reasonable assurance that its risk management, control, governance, and compliance processes are

effective, appropriate, and in compliance with the prescribed internal and external regulations.

The Board of Directors and Senior Management are responsible for promoting high ethical and integrity standards; establishing the appropriate culture that emphasizes, demonstrates and promotes the importance of internal control; and designing and implementing processes for the prevention and detection of fraud.

The internal audit function is being headed by the Internal Audit Head who is currently reporting to the Audit Committee and the Board, and has unrestricted access to all functions, records, property, and personnel, and have full and free access to the Audit Committee. Its main function is to provide independent, objective assurance and consulting services designed to add value and improve the Bank's operations. It helps the organization accomplish its objectives by bringing systematic and disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes through the conduct of regular or special audit.

The Bank's Board of Directors is ultimately responsible for ensuring that Senior Management establishes and maintains an adequate, effective, and efficient internal control framework commensurate with the size, risk profile and complexity of operations of the Bank. The Board of Director ensures that the Bank's independent audit function has an appropriate stature and authority within the Bank and is provided with adequate resources to enable it to effectively carry out its assignments with objectivity.

Based on the results of the risk assessment, the internal audit function conducts periodic review of the effectiveness of the Bank's system and internal controls to assess consistency with the board-approved policies and procedures. The resulting audit reports, including exceptions or breaches in limits, are communicated directly to the Audit Committee on a monthly basis to ensure the timeliness, accuracy, and relevance of reporting systems and internal controls in general. The regular report includes: (a) Exception reporting; (b) The target date, action plan and the root cause of the exception noted; (c) The status and/or effectiveness of actions taken; (d) The critical operational risks facing, or potentially facing, the bank; and (e) Major risk events/loss experience, issues identified and intended remedial actions.

In addition to the traditional reliance on internal audit functions, the Board performs self-assessments on an annual basis to gauge performance which often lead to early identification of emerging or changing risks requiring policy changes and updates."

The Bank also has its compliance function headed by the Chief Compliance Officer who is directly reporting to the Audit Committee and the Board. Its main task is to oversee and

coordinate the implementation of the Bank's compliance system, which includes the identification, monitoring and controlling of the Bank's business and compliance risk, through the conduct of compliance testing and regular monitoring of compliance with relevant laws, rules, and regulations. It also has unrestricted access to all functions, records, property, and personnel and have full and free access to the Board.

The Bank has a robust compliance system focused on the enforcement of the Anti-Money Laundering Act (AMLA), Money Laundering and Terrorist Financing Prevention Program (MTPP), Compliance Manual, Corporate Governance Manual, Code of Conduct, and other regulatory requirements. The Bank has articulated in its MTPP the regulatory issuances such as guidelines and circulars on anti-money laundering (AML) and combating the financing of terrorism (CFT) and proliferation financing (PF).

The Bank adheres to, among others, the KYC rules and customer due diligence requirements of the law and regulations from the start of customer relationship until its termination. Furthermore, the Bank takes note of bulletins and watch lists of individuals and entities engaged in illegal activities or terrorist-related activities. The watchlist files of Anti-Money Laundering Council (AMLC), Anti-Terrorism Council (ATC), and other international entities or organizations such as the Financial Action Task Force (FATF), Office of Foreign Assets Control (OFAC) of the U.S. Department of Treasury, United Nations Security Council (UNSC), and other agencies or organizations duly competent and recognized to create public watch lists are incorporated in the Bank's AML system (Integral 360) and/or internal watchlist database.

The Bank's Compliance Department is responsible for overseeing, coordinating, monitoring and ensuring compliance with existing laws, rules and regulations through the implementation of its compliance system in accordance with the requirements of the Bangko Sentral ng Pilipinas (BSP) and other regulatory agencies which include, among others, the identification and control of compliance risks, prudential reporting as well as compliance training.

The Bank's Audit Committee exercises oversight functions on the Bank's adherence to rules and regulations especially those issued by the Bangko Sentral ng Pilipinas (BSP), Securities and Exchange Commission (SEC), Philippine Deposit Insurance Corporation (PDIC), Anti-Money Laundering Council (AMLC), and other regulatory bodies and agencies. The Audit Committee also conducts oversight functions over the Bank's Anti-Money Laundering Committee (AMLCOM) through regular reporting of matters taken during its meetings. The AMLCOM review and decide on the disposition of AML/CFT issues referred by branches/business units (BUs).

The Compliance Department coordinates with regulators on their examinations and reports significant compliance issues and regulatory findings to Senior Management, Audit Committee, and the Board. The department is headed by Chief Compliance Officer (CCO) who was appointed by the Board. The CCO reports directly to the Audit Committee and Board of Directors.

n. Dividend Policy

Dividends shall be declared and paid out of the unrestricted retained earnings which shall be payable in cash, property, or stock to all stockholders on the basis of outstanding stock held by them, as often and at such times as the Board of Directors may determine and in accordance with law and applicable rules and regulations, and results of the Bank's operation. Since the Bank incurred a loss for the year 2025, there was no dividend declared for the said year.

o. Consumer Protection Practices

The Bank values the right of its customer as a consumer of financial products and services. For this reason, the Bank aims to provide them with the highest level of satisfaction.

The Board and Senior Management are responsible for developing the Bank's consumer protection strategy and establishing an effective oversight over the Bank's consumer protection program.

The Board of Directors are responsible for approving and overseeing the implementation of the Bank's consumer protection policies as well as mechanism to ensure compliance with said policies, and for monitoring and overseeing the performance of Senior Management in managing the day-to-day consumer protection activities of the Bank. Likewise, Senior Management are responsible for the implementation of the consumer protection policies approved by the Board, overseeing the implementation of the Bank's consumer protection policies, as well as mechanism to ensure compliance with said policies.

The Bank's consumer protection risk management system form part of the corporate-wide risk management system which includes the following process.

a. Risk Identification

Each consumer assistance officer identifies the consumer protection risk inherent in its operations. These include both risks to the financial consumer and to the Bank. This procedure form part of the Bank's annual Risk and Control Self-Assessment (RCSA). There is also a separate RCSA for consumer protection.

b. Risk Measurement

The consumer protection risk identified is being measured in terms of its likelihood and impact based on the Bank's existing RCSA Guidelines.

c. Risk Monitoring and Control

The Bank records and monitors the disposition of complaints received from its customer for reporting to Senior Management and Board of Directors, which includes the necessary actions to resolve the case and to prevent its recurrence.

The Bank ensures to provide accessible, affordable, independent, fair, accountable, timely and efficient means of resolving customer complaints. The Bank has appointed consumer assistance officer for various units headed by the Head Consumer Assistance Officer. It has a Financial Consumer Protection Assistance Mechanism (FCPAM) which is posted on the Bank's website and at its premises to guide customers on how they can file their respective concerns and how cases are resolved. The Bank classifies the customer concerns received as either simple or complex. In case of a simple concern, a resolution must be achieved within a 7-day period while complex concern that needs assessment, verification, or investigation with third party intervention, the resolution thereof is targeted to be achieved within a 30-day period, upon acknowledgement thereof and/or submission of requested information and documents, unless further investigation is warranted.

VII. RISK MANAGEMENT FRAMEWORK

a. Overall Risk Management Culture and Philosophy

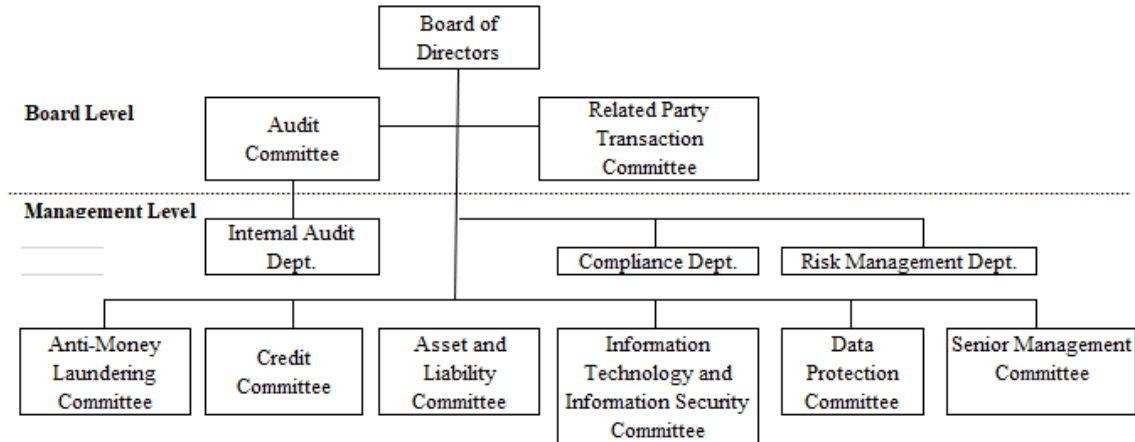

The underlying philosophy of the Bank's risk management system is that the Bank exists to provide value for its stakeholders. The Bank faces uncertainty, and the challenge for management is to determine how much uncertainty to accept as it strives to grow stakeholder value. Uncertainty presents both risk and opportunity, with the potential to erode or enhance value. The Bank's overall risk management objective is to effectively deal with uncertainty and associated risk and opportunities, with the ultimate objective of enhancing the capacity to build value.

The Bank's risk management system helps management to achieve its performance and profitability targets and prevent loss of resources. It helps to ensure effective reporting and compliance with laws and regulations, and helps avoid damage to the Bank's reputation and associated consequences. In essence, risk management system helps the Bank to get to achieve its goals while avoiding or mitigating the effect of pitfalls and surprises along the way.

The Bank has established various risk management policies, limits, manuals, and guidelines that lays down sound risk management practices and to guide the Bank's management and Board of Directors to understand, measure, monitor and control the risk assumed, adopt risk management practices whose sophistication and effectiveness are commensurate to the risk being monitored and controlled, and maintains capital commensurate with the risk exposure assumed.

b. Risk Governance Structure and Risk Management Process

The Bank's risk governance structure is shown below:

The Board is responsible for setting and monitoring the risk appetite for the Bank when pursuing its strategic objectives.

The Board and Senior Management of the Bank are ultimately responsible for the oversight of the Bank’s risk management process. Effective Board and Senior Management oversight of the Bank’s risk activities is critical to a sound risk management process. The Board is responsible for understanding the nature and the level of risks taken by the Bank and directly in-charge of the implementation of the risk management process which includes, among others, the development of various risk strategies and principles, control guidelines policies and procedures, implementation of risk measurement tools, monitoring of key risk indicators, and the imposition and monitoring of risk limits. Likewise, the Senior Management is responsible for ensuring that risks are adequately managed both on a long-term and day-to-day basis.

Currently, the Bank has two (2) board level committee as follows: (1) Audit Committee and Related Party Transaction (RPT) committee. The Audit Committee oversees the Bank’s financial reporting framework, monitors and evaluates the adequacy and effectiveness of the internal control system, oversee the internal and external audit function, oversees the implementation of corrective actions, investigates significant issues/concerns raised, and establishes a whistleblowing mechanism. Meanwhile, the related party transaction (RPT) Committee is in charge of the evaluation on an ongoing basis existing relation between and among businesses and counterparties to ensure that all related parties are continuously identified, related party transactions (RPTs) are monitored, and subsequent changes in relationships with counterparties are captured. This committee is also in charge of evaluating all material RPTs under the approving authority of the board of directors to ensure that these are not undertaken on more favorable economic terms and to properly monitor and manage the Bank’s exposure to related party transaction risk.

Various management committees are also tasked to implement the risk culture that the Board sets as follows:

Committee Membership	Risk Areas
Senior Management Committee	Strategic, Operational, Reputational, Legal, Environmental & Social Risks

Asset and Liability Committee	Liquidity & Market Risk, Environmental & Social Risks
Credit Committee	Credit Risk, Environmental & Social Risks
Information Technology and Information Security Committee	Information Technology and Information Security Risk
Data Protection Committee	Privacy Risk
Anti-Money Laundering Committee	Money Laundering / Terrorist Financing / Proliferation Financing Risks

The Senior Management Committee is an avenue in which the Department Heads interact with each other whereby their plans, issues, matters, status or activities are discussed on a regular basis, in order that the day-to-day functions of the different departments are monitored and reported to the Board as part of the latter's governance over the operations of the Bank.

The Asset and Liability Committee ensures the proper implementation of the Bank's liquidity and market risk management practices. These includes ensuring that the Bank is able to maintain a level of liquidity sufficient to meet its financial obligations in a timely manner and fulfil its legitimate funding needs, and understands, measures, monitors and controls the Bank's liquidity and market risk exposure.

The Credit Committee implements the Bank's credit risk management policies and systems. It is responsible for establishing an appropriate credit risk environment, ensuring that the Bank is operating under a sound credit granting process, and maintaining appropriate credit administration, measurement, monitoring process and control over credit risk.

The Information Technology and Information Security Committee (ITCOM), together with the Board of Directors set the overall tone and strategic direction for the Bank's information technology and information security by providing leadership, effective information security governance and oversight. It leads in establishing an information security culture that regards security as an intrinsic part of the Bank's core business and operations. It oversees the Bank's information technology projects and development of an information security strategic plan to clearly articulate security strategies and objectives aligned with business plans.

The Data Protection Committee serves as an oversight management committee to ensure effective implementation of Data Privacy Act of 2012 and its implementing rules and regulations. The Committee monitors the function of the Data Protection Officer (DPO), receive periodic reports from the DPO, reviews the Bank's Data Privacy Policy and Manual and endorse the same to the Board of Directors for final approval, and serve as the Bank's

Data Breach Response Team who shall be responsible for the implementation of incident response procedure and management of security incidents and personal data breaches.

The Anti-Money Laundering Committee is created to ensure that the Bank is protected against money laundering / terrorist financing / proliferation financing. It ensures effective implementation of the Bank's Money Laundering and Terrorist Financing Prevention Program approved by the Board, timely reporting of covered and suspicious transactions to the AMLC, and providing adequate oversight function on the Bank's AML compliance.

The Bank implemented the Three Lines of Defense model. The Business Lines and Support Units are the first line of defense in risk management, the Risk Management and Compliance Department are the second line of defense, and the Internal Audit Department is the third. Each of these three lines plays a distinct role within the Bank's risks governance framework.

The Business Lines and Support Units own the risks and are responsible for identifying, monitoring, and controlling them to stay within the Bank's risk appetite; and are responsible for promoting a culture of compliance and control.

The Compliance Department manages and monitors the implementation of the Bank's compliance risk management system designed to specifically identify and mitigate risks that may erode the franchise value of the Bank such as risks of legal or regulatory sanctions, material financial loss, or loss to reputation. Compliance risk management is also the responsibility and shared accountability of all personnel, officers, and the Board of Directors.

The Risk Management Department is responsible for overseeing the risk-taking activities across the Bank, as well as in evaluating whether these remain consistent with the Bank's risk-appetite and strategic direction. It ensures that the risk governance framework remain appropriate relative to the complexity of risk-taking activities of the Bank. It is also responsible for identifying, measuring, monitoring, and reporting risk on an enterprise-wide basis as part of the second line of defense.

Internal Audit Department provides independent objective assurance and consulting function established to examine, evaluate and improve the effectiveness of internal control, risk management and governance systems and processes of the Bank, which helps management and the Board of Directors in protecting the Bank and its reputation. It both assess and complement the Bank's operational management, risk management, compliance and other control function.

c. Risk Appetite, Strategies and Exposure

The Bank's risk appetite, strategies and exposures are summarized below:

- **Strategic Risk**

The Bank recognizes the importance of embedding risk into strategy setting. Better understanding of risks and uncertainties provides a strong foundation in setting key

assumptions for strategic planning and during the development of new products and services. The Board and Senior Management of the Bank are ultimately responsible for setting the Bank's strategies after evaluation of its threats and vulnerabilities, costs vs. potential benefits, its economic, political, social, and technological dimensions, complemented by an assessment of the Bank's core competencies, strengths, and business opportunities in order to provide sound basis for the Bank's strategic and business plans.

- **Operational Risk**

Operational risk is the current and prospective risk to earnings or capital arising from fraud, error, and the inability to deliver products or services, maintain a competitive position, and manage information. Risk is inherent in efforts to gain strategic advantage, and in the failure to keep pace with changes in the financial services marketplace.

Operational risk is being managed for each product and service offered by the Bank. It is being observed during product development and delivery, operational processing, systems development, computing systems, complexity of products and services, and the internal control environment.

Bank's exposure to operational risk is controlled by having an adequate and effective internal control to manage risk and to increase the likelihood that established objectives and goals will be achieved. Management regularly monitors its compliance with control policies and procedures and exposure to operational risk through ongoing management activities, separate evaluations (i.e. independent examination by Internal Audit and/or Compliance Department). The Bank has created a Risk Management Department which monitors and reports the Bank's operational risk exposure to Senior Management and the Board. The Bank also maintains an operational loss and customer complaints database to immediately address control lapses and weaknesses which resulted to losses or customer complaints.

An annual Risk and Control Self Assessment (RCSA) is conducted by each department, to identify, assess and manage the Bank's risk exposure. The Risk Management Department validates the RCSA conducted by each department. The result of the RCSA is being discussed to the Senior Management and Board of Directors as part of their oversight function. Each department head is in charge in disseminating the results of the assessment with their employees. An annual risk and control awareness seminar is also being conducted for all employees.

The Bank also has a comprehensive and well-designed Business Continuity Management (BCM) and Operational Resilience (OR) Framework, as an integral part of its Operational Risk Management System to enable swift resumption of critical operations and minimize operational, financial, legal, reputational, and other material risks arising from a disruption. A bank-wide Business Continuity Plan (BCP) Drill is conducted annually to test the effectiveness of its IT systems and the conduct of critical functions and services during a stress scenario or disruption.

As of 31 December 2025, the Bank's operational risk-weighted asset was ₱171.636M (computed using the Basic Indicator Approach).

- **Credit Risk**

The Bank has maintained credit risk management system. Its credit risk strategy is aligned with the Bank's profitability, deposits and loan portfolio growth targets, target customer, credit risk tolerance, and overall business goals. The Bank also considers its existing liquidity profile while granting loans to customer.

The following are performed by the Bank in order to manage credit risk:

- The Bank offers loan products to qualified individuals or business entities based on sound and prudent bank practices and in accordance with its existing policies.
- Extending loan facilities to qualified individuals or business entities, by taking into consideration the 6 Cs of Credit – capacity to pay, character, capital, collateral, condition/ circumstances surrounding the loan of each borrower, and credit score.
- For loans that are secured by collaterals, the Bank ensures that it can annotate its mortgage and therefore, protect its legal interest thereto.
- The Bank ensures compliance with internal single borrower's limit of (PHP500 million or 24% of the Bank's net worth whichever is lower, including group exposure).
- The Bank ensures that loans are approved by the Credit Committee (CRECOM) or Board of Directors based on set limits.

The Bank has a credit risk management structure that clearly delineates lines of authority, and establishes the accountabilities and responsibilities of individuals involved in the different phases of the credit risk management process.

The Bank has a Credit Department, independent of the Marketing Department who is in charge of the credit underwriting procedures. This includes the analysis and verification of the applicant's background, integrity, cash flow/financial capacity, character and collateral offered for the loan, as well as environmental and social (E&S) risks exposure of the borrower and/or collateral. The evaluation and approval of the loan is being made by the Credit Committee (CRECOM), provided it is within the CRECOM's approving authority. The CRECOM also serves as the oversight function for the Bank's credit underwriting procedures, reviews the Bank's Credit Policies and Procedures, and informs the Board of Directors on accounts approved by CRECOM. The Board of Directors is the final approver of credit policy, credit limits, credit risk management policy and loan beyond the approving authority of the CRECOM.

The Risk Management Departments is in charge of preparing monthly credit risk management report in order to inform the Bank's Senior Management and Board of Directors on its present credit risk exposure and results of stress testing. This also serves as a tool in monitoring the effectiveness of the Bank's existing credit policies and procedures.

The Bank has adopted its internal credit risk rating system (ICRRS) for individual and corporate borrowers. The ICRRS models has four (4) and five (5) sections with varying weights for Corporate/Business and Individual/Consumer Loans respectively, as follows:

Corporate/SME Borrowers		Consumer and Small Business	
Credit Considerations	Weight	Credit Considerations	Weight
Management Reputation and Banking Relationship	25%	Client Reputation and Banking Relationship	20%
Business Considerations and Industry Conditions	25%	Employer Business/ Business Considerations and Industry Conditions	20%
Financial Performance and Repayment Indicators	35%	Personal Profile	15%
Collateral Arrangements	15%	Repayment Indicators	30%
		Collateral Arrangements	15%
TOTAL	100%	TOTAL	100%

The environmental and social risks exposures of the borrowers are also taken into consideration in the ICRRS. Moreover, the ICRRS scoring is subject for periodic validation by the Internal Audit Department.

To reduce the Bank's non-performing loan (NPL) levels, past due loans are regularly monitored by the Bank's Legal Department. Collection activities are reported to the Credit Committee and Board of Directors on a monthly basis, including progress report for borrowers with substantial loan balance. The Bank has implemented a more stringent credit policies and procedures, with the objectives of improving the level of its current/good quality loan portfolio.

Internal NPL ratio limit has also been set for each type of loan and any breach has been monitored and reported to Senior Management and the Board.

The Bank also conducted a quarterly credit stress testing to determine the impact on the Bank's capital upon the occurrence of certain stress scenarios primarily based on BSP Circular 989 on the Conduct of Stress Testing.

Independent credit review function is being carried out alternately by the Compliance and Internal Audit Departments every six (6) months to assess the quality of individual credits and compliance with regulatory and internal policies and procedures.

As of 31 December 2025, the Bank's balance sheet credit risk exposure and credit risk weighted assets are shown as follows:

Nature of Item (Amounts in Million PHP)	Credit Risk Exposure (Net Carrying Amount)	Credit Risk Weighted Assets
a. Loans to individuals for housing purpose, fully secured by first mortgage on residential property that	40.557	20.279

is or will be occupied by the borrower, which are not classified as non-performing – 50% risk weight		
b. Foreign currency denominated claims on or portions of claims guaranteed by or collateralized by foreign currency denominated securities issued by the Philippine National Government & the BSP - 50% risk weight	49.767	24.883
c. All non-performing loans (except non-performing loans to individuals for housing purpose, fully secured by first mortgage on residential property that is or will be occupied by the borrower), all non-performing sales contract receivables, and all non-performing debt securities – 150%	34.318	51.476
d. Real and other properties acquired and Non-current assets held for sale, net of allowance for losses – 150%	3.140	4.710
e. Net Other Assets - 100% risk weight	2,153.207	2,153.207
Total	2,280.989	2,254.556

- **Market Risk**

The Bank's exposure to market risk is relatively low since it does not actively engage in trading activities and has no derivative operations. Interest rate movements and the level of foreign exchange risk have minimal impact on the Bank's earnings and capital. It follows a prudent policy in managing its assets and liabilities to ensure that its exposure to fluctuations in interest rates and foreign exchange fluctuations is kept within reasonable limits.

The Bank has a Board-approved Market Risk Management Policy and market risk limits for the effective discharge of market risk management function. The Bank measures its market risk exposure through monthly monitoring of various limits and re-pricing gap analysis. A monthly report on the Bank's market risk exposure and limit breaches, if any, are being discussed during the Asset and Liability Committee (ALCO) and Board of Directors meeting.

The Bank's Market Risk Limits include Exposure Limit (Greeks Limit), VaR Limit, and Loss Ratio Limits including individual and overall unrealized loss ratio of related product including bonds.

(a) VaR limit :

VaR is measured by one-day holding horizon using historical simulation method at 99% confidence level.

(b) Exposure Limit:

Exposure Limit for Market Risk could be Delta limit and set as Long and short position limits that each of them should be measured by aggregating long and short position on overall and net base separately. Delta is defined as the amount of change in market value of an asset due to specific amount change in market price, in case of

interest rate delta, the change is 100 bps in interest rate and in case of equity or FX delta, the change is 1% of price.

Independent market risk review function is being done by the Internal Audit Department in order to assess the level of compliance with prescribed regulatory and internal policies and procedures.

Interest Rate Risk in the Banking Book (IRRBB)

IRRBB refers to the current or prospective risk to the bank's capital and earnings arising from adverse movements in interest rates that affect the bank's banking book positions, the future Net Interest Income (NII), or the Economic Value of Equity (EVE). With reference to the guidance of BCBS papers and the management practice across banks, the management framework and the governance structure are formulated and listed below.

The Board of Directors is responsible for reviewing IRRBB policy, framework and execution regularly. Asset and Liability Management Committee (ALCO) is authorized by the Board to formulate and execute the IRRBB management strategies, policies and practices.

Management Process of IRRBB:

- a. Risk Identification: IRRBB risk factors, including repricing risk, yield curve risk, basis risk and option risk are identified and captured through daily operations of all business units.
- b. Risk measurement: The methodology of the measurement includes but not limited to the impact analysis of economic value and earnings perspective under the stress scenario of interest rate shock. The methodology should be reviewed regularly for the reasonableness.
- c. Risk monitoring and control: The Bank should evaluate and adopt the risk tolerance, transfer, mitigation and avoidance. The interest rate shock scenarios, as well as the modelling and parametric assumptions used in IRRBB measurement are formulated based on BCBS standards and the rules of the regulator.
- d. Risk Reporting: Risk reporting should include the analysis on interest rate sensitivities, stress test results and the root cause of over-limit. Risk Management Department should monitor the impact of change in interest rate on earning and capital and report to the BOD and ALCO on a monthly basis.

The above framework may be enhanced or revised once there is any new release of IRRBB related rule or guidance from the regulator.

- **Liquidity Risk**

The Bank manages liquidity risk by holding sufficient liquid assets of appropriate quality to ensure that short-term statutory and liquidity funding requirements are met and by maintaining a balanced loan portfolio which is repriced on a regular basis. The Bank's level of liquidity is aligned on its present deposits and loans volume. The Bank has enough liquidity level and ensures that the required deposit reserve has been met.

There is a Board approved Liquidity Risk Management Policy for the effective discharge of liquidity risk management function. The Bank's Treasury and Risk Management Departments measure its liquidity risk exposure through the preparation of monthly maturity matching report, quarterly stress testing, and computation of various liquidity ratios.

Periodic reports on the Bank's liquidity risk exposure are being discussed during the monthly Asset and Liability Committee (ALCO) and Board of Directors meetings.

The Bank also maintains interbank call loan (IBCL) and credit line facilities with other banks, and with its parent bank to support liquidity needs if the need arises.

Independent review of the liquidity risk management function is being done by the Internal Audit Department to assess the level of compliance with prescribed regulatory and internal policies and procedures.

As of 31 December 2025, the Bank's liquid assets stand at ₱776.8M. This comprises mainly of cash and due from other banks – ₱49.6, due from BSP – ₱463.4M, and investment securities – ₱263.8M. During the same period, the Bank's minimum liquidity ratio of 180.97% is significantly higher than the required 20%.

The Bank has an existing liquidity contingency plan and regularly conducts stress testing exercise. On the Bank's liquidity stress testing as 31 December 2025 with an assumption of 50% decrease in its deposit liabilities, the Bank will be able to satisfy its liquidity needs at a minimal amount of projected cost of financing/amount of loss revenue amounting to ₱4.26M.

- **Legal Risk**

The Management believes that, liabilities or losses, if any, arising from the Bank's currently identified legal risk, would not have a material effect on the financial position and results of operations of the Bank. The Bank's risk management system covers policies and procedures in handling legal risk which are strictly implemented. The Bank has a Legal Department who is in charge for the assessment, management, and prevention of legal risk.

- **Compliance Risk**

The Bank ensures to address compliance risk properly. It adopts a compliance risk management system and its Board of Directors generally addresses key aspects of compliance risk. Appropriate actions have been undertaken to comply with banking laws, BSP rules and regulations, and other regulatory requirements. The Board of Directors appointed Chief Compliance Officer to oversee the implementation of compliance program. Likewise, the Bank's Compliance Program was formulated and it adequately and generally covers compliance issues and concerns.

The Chief Compliance Officer is responsible in cascading compliance matters to the concerned personnel. Each department also has their respective compliance coordinator to ensure compliance with existing laws and regulations within their respective unit. Reporting

of compliance matters is being reported by the Chief Compliance Officer to Senior Management and Board of Directors on a monthly basis.

The Senior Management and Board of Directors are responsible in setting the tone at the top focusing on ethical climate and compliance culture among all personnel.

- **Reputational Risk**

Reputational risk is the current and prospective impact on earnings or capital arising from negative public opinion. This affects the Bank's ability to establish new relationships or services or continue servicing existing relationships.

In the banking sector where business relationships are based on trust and confidence, the management of reputational risk is crucial. Given that reputational risk issues generally are an outcome of operational lapses and concerns, reputational risk management is largely centered on strengthening banking service delivery. It is the Bank objective to always provide reliable, professional, efficient and customer-oriented services. In this regard, the Bank also has a Financial Consumer Protection Assistance Mechanism (FCPAM) to address client concerns and customer complaints, and has a proactive solicitation mechanism for customer feedback. Significant issues are required to be immediately reported to Senior Management, Board of Directors, and parent company for timely and proper management of the issues.

- **Information Security and Privacy Risk**

The Bank ensures to safeguard the customer's information and the Bank's information systems from unauthorized access, use, disclosure, modification, recording, disruption, and destruction across its operations. With the rising threats of cybersecurity, the Bank continues to strengthen and establish governance framework, policies, standards, and guidelines related to the overall protection and management of its information assets.

The Bank has Information Technology and Information Security Departments under the oversight of the Information Technology and Information Security Committee (ITCOM). These departments are responsible for overseeing all information security activities of the Bank, and for establishing policies, standards, and guidelines in safeguarding its information assets to ensure protection against loss or misuse of information. ITCOM is also responsible for information security governance activities which include, but not limited to, information security awareness trainings, system vulnerability assessments, management of user access roles, and information security incidents.

The Bank also has appointed a Data Protection Officer (DPO) under the oversight of Data Protection Committee to ensure effective implementation of Data Privacy Act of 2012 and its implementing rules and regulations and to safeguard the personal information of the data subject.

d. AML Risk

The Bank has its Money Laundering and Terrorist Financing Prevention Program (MTPP) approved by the Board which needs to be observed by all concerned personnel. The Board and Senior Management exercise its oversight function in the effective implementation of the Bank's MTPP which is being managed by the Bank's Compliance Department. It also provides for appropriate monitoring, management information system, and effective implementation to ensure that the Bank is not being used as a medium to legitimize proceeds of unlawful activity or to facilitate or finance terrorism. AML internal controls and periodic audit/compliance testing is also in place to ensure adequate and effective implementation of the Bank's MTPP. The Bank also conducted an annual AML training program for its employees as well as AML orientation program to all newly hired employees. The Bank has an AML automated system to ensure effective and efficient implementation and monitoring of AML-related concerns, including analysis of customer data and detection of suspicious transactions.

VIII. SUSTAINABLE FINANCE

a. Sustainability strategic objectives and risk appetite

The Bank shall abide by its Sustainable Finance Framework, incorporate environmental, social, and governance (ESG) factors into the daily operation and decision-making, improve its governance culture by means of ethical corporate management, openness and transparency, strict compliance with laws and regulations, and take into account the practice of corporate social responsibility, so as to create shared value between the enterprise and all related stakeholders.

As the Bank is committed to sustainability, its environmental and social (E&S) Objectives includes:

- To develop and implement tailored E&S risks strategies that comply with BSP's requirements, and actively manage sectoral and geographic exposures, and capitalize on sustainable finance opportunities.
- To promote products of financial inclusion, expand accessibility and use of financial services.
- To integrate the essence of ESG into the financing selection process to guide and encourage clients to pay attention to green and social issues.
- To transition away from carbon intensive and other high-risk industries without compromising economic opportunities and the short, medium, and long-term development of the country.

b. Overview of E&S risk management system

On 27 October 2020, the Board approved the Bank's Sustainable Finance Framework, including its Transition Plan in compliance with BSP Circular 1085 with a view to implement the spirit of corporate social responsibility into business planning and corporate

operation, actively managing environmental and social risks and incorporating them into consideration for transaction decision-making through the framework and guidance of principles, and to promote values of environment, social and governance in line with the international sustainable development trend, and to support the UN Sustainable Development Goals and fulfill the responsibilities of citizens of the world.

The Bank’s Sustainable Finance Framework defines the duties and responsibilities of the Board of Directors in promoting the long-term financial interest of the Bank and ensure that it has beneficial influence on the economy, as well as the duties and responsibilities of the Senior Management for the overall implementation of the board-approved strategies and policies in relation to the sustainability objective of the Bank.

On 06 January 2022, the Board also approved the Bank’s Environmental and Social Risk Management (ESRM) Policy in compliance with BSP Circular 1128. The said policy shall govern the integration of environmental and social (E&S) risks in the Bank’s enterprise-wide risk management framework, particularly on credit and operational risks. Further revisions to the said Policy was approved by the Board on 26 April 2024.

On 23 October 2023, the Bank adopted its ESRMS Guidance Document to guide the Bank concerned personnel in the implementation of ESRM for its lending and investment activities.

On 29 April 2025, the Bank’s Sustainable Finance Framework was further amended in compliance with BSP Circular 1187 on Philippine Sustainable Finance Taxonomy Guidelines 1187.

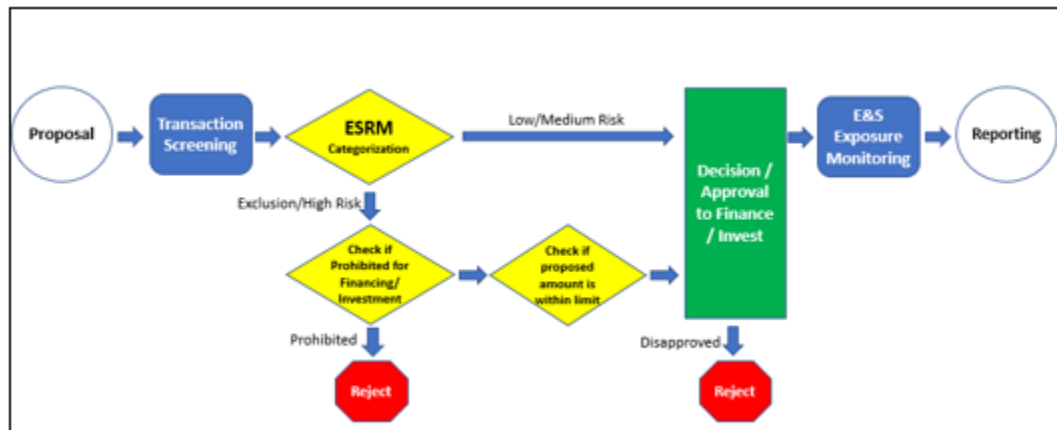

The Bank is guided by its ESRMS Framework, which is based on international standards¹ and the ESRMS Guidelines of the BSP. To comply with this guidance, the Bank uses a sector and geographic-specific risk approach to identify and characterize indirect ESRs that can pose financial threats to the Bank through its clients. Indirect risk arises when environmental and social issues impact the creditworthiness of the client. *See illustration below.*

¹The risk universe is based on the World Economic Forum’s Global Risk Landscape and the development of risk controls expected from the clients are aligned with the International Finance Corporation.

The Bank ESRMS framework is anchored on its Philosophy, which provides the general direction of how the Bank carries out its ESG Integration and Risk Management, as well as its internal mechanisms such as Communications, Processes and Tools, Governance, and People.

The Bank’s procedures for managing environmental and social risk in credit and investment transaction cycle is shown below:

The Bank follows a generic approach to assessment in assessing an activity under the Sustainable Finance Taxonomy Guidelines. The following questions are asked when assessing an activity:

- Is the activity in compliance with Philippine laws?
- Does the activity substantially contribute to at least one environmental objective?
- Does the activity avoid actual/potential harm to the other environmental objective?
- If there is harm/potential harm, has it been remediated or will it be remediated within the required defined period?

Activities are then assessed according to a series of criteria, guiding questions and decision trees to ultimately determine corresponding classification as "Green", "Amber" or "Red." A summary of the classifications is included below:

Category	Definition
Green	The Activity is making a substantial contribution to an EO and meets the Essential Criteria of Do No Significant Harm (DNSH) and Minimum Social Safeguards (MSS).
Amber	The Activity makes a substantial contribution to an EO but causes significant harm to another EO . However, that harm can be remediated within 5 years or an independent verification supports a claim that remediation will take less than 10 years. It must also meet the Essential Criteria of DNSH and MSS.
Red	The Activity does not serve any EO or meet the Essential Criteria .

As part of due diligence, the activity is to be determined if it is an “Excluded Activity” as adapted from the Republic of Philippines Sustainability Finance Framework which shall include the following:

1. Exploration, Production or Transportation of Fossil Fuel, Fossil-Fuel Power Generation Related Projects
2. Engaged in power supply and whose coal-fired thermal power generation accounts for more than 50%.
3. Coal-related industries or unconventional oil and gas industries, and coal-related or unconventional oil and gas-related income account for more than 30% of their total income.
4. Corporate governance issues have been published/reported in the news and pose serious risk of violation, and the failure to raise
5. Engage in highly controversial industries such as pornography, wildlife killing or habitat destruction, internationally banned chemicals/drugs/pesticides/herbicides or radioactive substances.
6. Enterprises that violate relevant regulations on preventing money laundering and combating terrorism financing or have other major violations and fail to propose specific improvement plans.
7. Manufacture and Production of Finished Alcoholic Beverages
8. Lethal Defense Goods
9. Military Contracting
10. Gambling
11. Weaponry
12. Non-RSPO-certified Palm Oil
13. Manufacture and Production of Finished Tobacco Products
14. Conflict Minerals
15. Activities/projects associated with Child Labor/Forced Labor
16. Extractive Mining
17. Production or Trade in Wood or Forestry Products other than from sustainably managed forests And, to the extent that DNSH and MSS requirements cannot be complied with:
18. Projects involving involuntary resettlement and impact on livelihood (i.e., demolition of residential communities);
19. Projects which would affect ethnic minorities/indigenous people and the lands they own or claim
20. Projects located near any protected areas

E&S risks in the context of operational risk

The Bank conducts an annual Environment and Social Risk Management System (ESRMS) Training and also considers E&S risks in the context of operational risk which can cause disruption to a Bank's operations, and integrates E&S Risks in its Business Continuity Management. It adopts a cyclical, process-oriented Business Continuity Management Framework, comprising of five phases, as shown in the diagram below:

An annual Business Impact Analysis (BIA) which should serve as the foundation in the development of its business continuity plan is being conducted. The BIA entails determining and assessing the potential impact of disruptions to critical business functions, processes, and their interdependencies through work-flow analyses, enterprise-wide interviews, and/or inventory questions. The Risk Assessment (RA) is also being conducted annually incorporating the results of the BIA and evaluating the probability and severity of a wide-range of plausible threat scenarios in order to come up with recovery strategies that are commensurate with the nature, scale, and complexity of its business functions. In the risk assessment exercise, the impact of the events and scenarios to the Bank's operations such as those natural/ environmental events, manmade risk, facilities/technology related risk, and effect of pandemic is being assessed based on its likelihood and impact. The Bank's existing preventive measures is also evaluated in order to come up with the residual risk. An action plan is being formulated in order to reduce the impact of risks/threat/vulnerabilities.

The Bank also conducts an annual Department Business Continuity Plan (BCP) where each department documents its overall recovery and resumption strategies per given stress scenarios. The recovery and resumption strategies of each department are being tested at least on an annual basis during the bank-wide BCP Drill, or if there have been significant changes in business and operating environment, and audit and regulatory recommendations or regulations, whichever comes earlier to ensure that the plan remains accurate, relevant, and operable.

An annual Business Continuity Management (BCM) Awareness Training Program is also being conducted to promote employee awareness, familiarity, and understanding of their roles and responsibilities in the event of a business disruption.

The Bank uses hazardhunter.georisk.gov.ph as a tool to generate hazard assessment reports for the Bank’s head office and disaster recovery site to determine exposure to hazards such as earthquakes, floods, drought, severe wind, and sea-level rise, among others. This tool was developed by GeoRisk Philippines, which is a multi-agency initiative by the Philippine Institute of Volcanology and Seismology (PHIVOLCS), Department of Science and Technology (DOST), and the Philippine Council for Industry, Energy and Emerging Technology Research and Development (PCIEERD). The result of the assessment is shown below:

Head Office:

Location: Ground Floor, Chatham House Building, 116 Valero corner Rufino Streets, Salcedo Village, Makati City

Hazard	Assessment
Ground Rupture	Safe
Ground Shaking	Prone; Intensity VIII
Liquefaction	Safe
Earthquake-Induced Landslide	Temporarily unavailable
Tsunami	Safe
Nearest Active Volcano	Approximately 60.8 km north of Taal
Permanent Danger Zone	Outside
Flood	Low Susceptibility; less than 0.5 meters flood height and/or less than 1 day flooding
Storm Surge	Safe

Disaster Recovery Site:

Location: Unit G3, Park Trade Center, Investment Drive, Madrigal Business Park, Alabang, Muntinlupa City

Hazard	Assessment
Ground Rupture	Safe; Approximately 2.5 km west of the Valley Fault System: West Valley Fault
Ground Shaking	Prone; Intensity VIII
Liquefaction	Safe
Earthquake-Induced Landslide	Temporarily unavailable
Tsunami	Safe

Nearest Active Volcano	Approximately 45.9 km north of Taal
Permanent Danger Zone	Outside
Flood	Low Susceptibility; less than 0.5 meters flood height and/or less than 1 day flooding
Storm Surge	Safe

Managing social risks

The Bank also ensures that social risks concern such as public health and labor issues which can adversely impact the Bank’s operations are properly manage and monitor.

The Bank is committed to ensuring the physical, social, and mental well-being of its employees. It ensures to observe the general labor standards and the occupational health and safety standards as mandated by the Philippine government.

The bank has existing Employer-Employee Dialogue and Grievance Mechanism Policy (alternately known as the *YuanTalk*). *YuanTalk* is envisioned to be a venue for dialogue between the Bank and its employees where the latter will feel free and safe to bring about to the management their issues or concerns. *YuanTalk* also incorporates the formal procedures for the redress of grievance in case the informal dialogue is not sufficient to resolve the grievance.

During the first quarter of the year, a town hall meeting with the President is being conducted. During the said meeting, the employees may ask questions or share their suggestions or concerns which may be addressed in future policies of the Bank.

The Bank is committed to promote a work environment that fosters diversity and equality, where everyone receives fair and equal treatment, equal rights, and opportunities regardless of gender, ethnicity, race, age, religion, sexual orientation, and disability. Instead, it seeks the best talents who are selected, engaged, compensated, and promoted, as the case may be, based on merit and performance. As of 31 December 2025, the Bank’s total employees are comprising of 24 male and 22 female.

c. Products/services aligned with internationally recognized sustainability standards and practices

The Bank caters traditional products and services such as deposits, loans, remittance, and foreign exchange. Its existing business model focuses on both corporate and retail banking for its lending and deposit operation.

Though the Bank currently has no sustainability products/services, it prohibits lending/investing in some industries and activities whose operations may have significant impact to the environment or exposure to social risks.

d. Breakdown of E&S risk exposures

As of 31 December 2025, the breakdown of the Bank’s E&S risk exposures is shown below:

i. Based on industry:

Type of Portfolio	No. of Accounts	E&S Risk	Outstanding Balance
Business loan	10		₱1,903,572,870
Financial and insurance	2	Medium	800,000,000
Manufacturing	2	Medium	400,000,000
Real estate activities	1	High	35,000,000
Wholesale and retail trade	1	Low	200,000,000
Accommodation and food service activities	1	Low	400,000,000
Agriculture, forestry and fishing	2	Medium	67,000,000
Professional, scientific and technical activities	1	Low	1,572,870
Investment (Corporate bonds)			
No exposures as of December 31, 2025			
Total	10		₱1,903,572,870

ii. Based on business location:^{1/}

a. Ground Rapture

	Safe
No. of Accounts	10
Outstanding Balance	₱1,903,572,870

b. Liquefaction

	Safe	High Potential/High Susceptible	High
No. of Accounts	7	1	2
Outstanding Balance	₱1,536,572,870	₱32,000,000	₱335,000,000

c. Tsunami

	Safe	Prone; Inundation depth: 2 to 6 meters
No. of Accounts	8	2

e. Existing and emerging E&S risks and their impact on the Bank

The Philippines is cited as the world’s highest disaster risk exposure (World Risk Report 2022), world’s 4th most affected by catastrophes in the long-term climate index from 2000-2019 (Global Climate Risk Index, 2021), world’s 3rd highest in air pollution-related deaths (WHO, 2018), and world’s 3rd highest polluter of the world’s oceans (Greenpeace, 2018).

Meanwhile, the rapid growth of online transactions results to emerging cybersecurity threats and data privacy issues.

The emerging E&S risks identified by the Bank which may cause business disruptions are shown in the table below. These risks may also result to potential financial, legal, and/or reputational negative effect if not properly managed.

Emerging E&S Risk	Description	Potential impact of identified environmental and social risks on the business		
		People	Property	Facilities
Environmental risks	Threats and environmental disasters such as typhoons, habagat or the Southwest Monsoon, flash flood, storm surge, earthquake, volcanic eruption, fire.	<ul style="list-style-type: none"> Extended/longer working hours. Insufficient manpower complement, infectious/hospitalized/quarantined/ 	<ul style="list-style-type: none"> Building, furniture, fixtures, and equipment are damaged or not available for use. Data loss, 	<ul style="list-style-type: none"> Food, water, medicine, shortage. Power interruption. Telecommunication failure. Unavailability of public transport. Major roads are

Social risks	Labor unrest, work stoppage, employee strike, high employee turn-over, occupational health and safety issues, infectious diseases, cyber threat, acts of terrorism, sabotage or civil disturbance, geopolitical risk, violation of consumer protection, data privacy, & money laundering laws and regulations.	employees. <ul style="list-style-type: none"> • Lockdown, declaration of community quarantine. • Stranded employees. • High employee turn-over. • Disgruntled employee. • Labor complaints. 	corruption or leakage of information. <ul style="list-style-type: none"> • Primary office or DR site is inaccessible due to natural disasters, manmade risks, lockdown, contamination, and road closures/travel restriction. 	impassable.
--------------	--	---	--	-------------

f. Other ESG initiatives

Various trainings on Sustainable Finance and Environmental and Social Risk Management System (ESRMS) have been attended by the Bank’s employees to equip their knowledge and skills on Sustainable Finance and to integrate ESG principles in the Bank’s operations. This includes an annual internal ESRMS Training conducted by the Risk Management Department.

The Bank will also consider to invest in green, social, or sustainability bonds or lend funds to promising sectors to support the country’s sustainable development goals, depending on its available funds and demands.

The Bank ensures regular preventive maintenance for air-conditioning units and hybrid service vehicle extending its lifespan, optimizing fuel efficiency, and reducing emissions. On an annual basis, the Bank monitors its consumptions for electricity, flight tickets for travel expenses, vehicle fuels, and fire extinguisher among others to ensure a more efficient utilization and help reduce the greenhouse gas (GHG) emissions. In addition, the Bank highly utilizes its secure email facility for sending of various correspondence to the customer, monitors the paper/photocopying consumption of each department, and replaced all its lightings to LED in 2025 to reduce electricity consumption.

The Bank also participated in the Earth Hour video activity in collaboration with other subsidiary companies of Yuanta Financial Holdings to raise awareness on environmental issues and to instill the importance of protecting and conserving our planet.

Report on the Audits of the Financial Statements

Our Opinion

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Yuanta Savings Bank Philippines, Inc. (the "Bank") as at December 31, 2025 and 2024, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

What we have audited

The financial statements of the Company comprise:

- the statements of financial position as at December 31, 2025 and 2024;
- the statements of comprehensive income for the years ended December 31, 2025 and 2024;
- the statements of changes in equity for the years ended December 31, 2025 and 2024;
- the statements of cash flows for the years ended December 31, 2025 and 2024; and
- the notes to the financial statements, comprising material accounting policies and other explanatory information.

Isla Lipana & Co., 29th Floor, AIA Tower, 8767 Paseo de Roxas,
1226 Makati City, Philippines
+63 (2) 8845 2728

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Global Service Center in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), together with the ethical requirements that are relevant to our audits of the financial statements. We have also fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Revenue Requirements

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required by the Banko Sentral ng Pilipinas (BSP) under Circular No. 1074 and by the Bureau of Internal Revenue under Revenue Regulations No. 15-2010 as disclosed in Note 22 and 23, respectively, to the financial statements is presented for purposes of additional analysis and is not a required part of the basic financial statements in accordance with PFRS Accounting Standards. Such supplementary information is the responsibility of management and has been subjected to the auditing procedures applied in our audits of the basic financial statements. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

As at and for the years ended December 31, 2025 and 2024

(All amounts in Philippine Peso, unless otherwise stated)

1 General information

Yuanta Savings Bank Philippines, Inc. (the "Bank") was incorporated in the Philippines and registered with the Securities and Exchange Commission (SEC) on August 1, 1997. The Bank was authorized by the Bangko Sentral ng Pilipinas (BSP) to operate as a thrift bank on October 24, 1997 and started its commercial operations on November 5, 1997.

The Bank is engaged in the general business of savings and mortgage banking and exercises all the rights, attributes, powers and privileges, together with the assumption of all the duties and obligations of a savings and mortgage bank. As a banking institution, the Bank's operations are regulated and supervised by the BSP. On June 14, 2007, the Monetary Board of the BSP granted the Bank the authority to operate a Foreign Currency Deposit Unit (FCDU). On August 1, 2007, the Bank started its FCDU operations.

On November 26, 2019, the Bank applied for an increase in authorized capital stock with SEC and Yuanta Commercial Bank Co., Ltd. (YCB) invested additional capital to subscribe to 1.4 billion shares at P1 par. On December 9, 2021, SEC approved the Bank's application for increase in authorized shares. As at December 31, 2025 and 2024, the Bank is a wholly-owned subsidiary of YCB.

The Bank's registered address is at G-1A/B, Chatham House Condominium, Rufino corner Valero Streets, Salcedo Village, Makati City. As at December 31, 2025, the Bank has 46 employees (2024 - 49).

Approval of the financial statements

The financial statements of the Bank have been approved and authorized for issue by the Board of Directors (BOD) on April 29, 2025. There are no material events that occurred from April 29 to April 30, 2025.

2 Cash and cash equivalents; Due from BSP

Details of cash and cash equivalents presented in the statement of cash flows as at December 31 follow:

	Note	2025	2024
Cash and other cash items		13,526,422	13,355,360
Due from BSP		463,449,304	57,950,644
Due from other banks	3	36,034,915	39,117,756
		513,010,641	110,423,760

Due from BSP as at December 31 consists of:

	2025	2024
Overnight deposit facility (ODF)	92,000,000	50,000,000
Demand deposit account (DDA)	1,449,304	7,950,644
BSP - term deposit facility (TDF)	370,000,000	-
	463,449,304	57,950,644

TDF represents placement with the key liquidity absorption facility of the BSP. DDA represents reserve requirements as provided under Section 94 of Republic Act (RA) No. 7653.

It also includes the Bank's respective working funds to settle transactions due to/from BSP and with other banks, which are subject to payment in legal tender upon demand, by the presentation of checks as provided under Section 58 of RA No. 7653.

ODF represents settlement account with an average maturity of seven (7) days.

For the year ended December 31, 2025, interest income from due from BSP amounts to P6,788,119 (2024 - P9,278,776).

3 Due from other banks

The account as at December 31 consists of:

	2025	2024
Placements	23,516,000	12,218,240
Deposit accounts	12,518,915	26,899,516
	36,034,915	39,117,756

Deposit accounts generally earn interest based on daily bank deposit rates.

The Bank's placements with other banks consist of time deposits with local banks denominated in US dollar for a period of one month to three months with interest at prevailing market rates and are considered as cash equivalents (Note 2) in the statement of cash flows.

For the year ended December 31, 2025, interest income with other banks amounts to P171,991 (2024 - P942,993).

4 Investment securities

4.1 Investment securities at fair value through other comprehensive income (FVOCI)

The account at December 31 consists of:

	2025	2024
Debt securities		
Government	-	890,664,500
Private	58,713,573	94,038,924
	58,713,573	984,703,424
Proprietary shares - country club shares	5,800,000	6,000,000
	64,513,573	990,703,424

Government and private debt securities as of December 31, 2025 and 2024 will mature in various dates from 2025 to 2031.

	2025	2024
Current (within 12 months)	58,713,573	97,881,000
Non-current (over 12 months)	-	886,822,424
	58,713,573	984,703,424

The movements in investment securities at FVOCI follow:

	2025	2024
At beginning of year	990,839,042	1,120,185,130
Disposals	(968,695,000)	-
Maturities	-	(150,000,000)
Amortization of premium, net	(310,149)	(816,313)
Effect of foreign exchange rate changes	1,478,538	3,728,094
Fair value adjustment	41,277,707	17,742,131
Gross amount at year-end	64,590,138	990,839,042
Allowance for impairment loss	(76,565)	(135,618)
FVOCI net of allowance	64,513,573	990,703,424

The movements in Allowance for Impairment Loss at FVOCI follow:

	2025	2024
At beginning of year	135,618	134,512
Additional ECL	599	1,183
Reversal of impairment loss	(59,652)	(77)
At end of year	76,565	135,618

As at December 31, 2025, government securities amounting to P146.63 million (2024 - P865.10 million) is used as security for total credit lines amounting to P417.30 million (2024 - 680 million). Out of the securities pledged as security, P146.63 million (2024 - 100 million) is classified as investment at amortized cost.

For the year ended December 31, 2025, interest income from government debt securities and other debt securities amounts to P33,266,993 (2024 - P39,421,819).

The Bank disposed of certain investment securities, recognizing a loss on sale of P14.44 million (2024 – nil) as part of its balance sheet optimization strategy.

4.2 Investment securities at amortized cost

The account at December 31 consists of:

	2025	2024
Government debt securities		
Current (within 12 months)	1,067,881	4,504,169
Non-current (over 12 months)	198,212,654	202,001,250
	199,280,535	206,505,419
Corporate debt securities		
Non-current (over 12 months)	-	50,081,634
	199,280,535	256,587,053

Debt securities carry interest at rates ranging 4.85% to 8.60% as at December 31, 2025 and 2024, and mature in various dates from 2025 to 2028.

The movements in investment securities at amortized cost follow:

	2025	2024
At beginning of year	256,587,053	265,272,149
Maturities	(56,386,689)	(9,204,423)
Amortization of (premium) discount, net	(1,799,406)	(1,654,048)
Reversal of impairment loss	52,628	7,866
Effect of foreign exchange rate changes	826,949	2,165,509
At end of year	199,280,535	256,587,053

For the year ended December 31, 2025, interest income from these investments amounts to P13,113,158 (2024 - P14,086,224).

5 Loans and receivables, net

The account as at December 31 consists of:

	2025	2024
Receivable from customers		
Commercial	1,906,302,729	1,040,108,430
Consumption	8,781,609	7,823,871
Real estate	102,424,316	77,042,492
	2,017,508,654	1,124,974,793
Other receivables		
Accrued interest receivables	7,515,079	13,876,876
Accounts receivables	386,712	297,327
	7,901,791	14,174,203
	2,025,410,445	1,139,148,996
Allowance for credit losses		
Stage 1	(14,900,544)	(7,321,494)
Stage 2	-	(54,480)
Stage 3	(35,165,052)	(35,194,472)
	(50,065,596)	(42,570,446)
	1,975,344,849	1,096,578,550

Interest income on loans and receivables for the years ended December 31 consists of:

	2025	2024
Receivables from customers		
Commercial	88,085,412	68,189,683
Consumption	662,960	1,151,842
Real estate	6,060,219	4,867,214
	94,808,591	74,208,739

Below is the breakdown of allowance for credit losses as December 31:

	2025	2024
Receivable from customers	49,477,338	41,977,883
Accrued interest receivables	588,258	592,563
	50,065,596	42,570,446

Movements in the allowance for credit and impairment losses on loans and receivables are as follows:

	2025	2024
Balance at beginning of year	42,570,446	39,862,924
Write-offs	(570)	-
Provision	7,495,712	2,707,502
Effect of foreign exchange	8	20
	50,065,596	42,570,446

The allowance for credit losses recognized is impacted by a variety of factors, as described below:

- Transfers between Stage 1 and Stages 2 or 3 due to financial instruments experiencing significant increases (or decreases) of credit risk or becoming credit-impaired in the period, and the consequent “step up” (or “step down”) between 12-month and lifetime expected credit loss (ECL);
- Additional allowances for new financial instruments recognized during the period, as well as releases for financial instruments derecognized in the period;
- Impact on the measurement of ECL due to changes in probability of default (PD), exposure at default (EAD) and loss given default (LGD) in the period;
- Foreign exchange translations for assets denominated in foreign currencies and other movements; and,
- Financial assets derecognized during the period and write-offs of allowances related to assets that were written off during the period.

The following tables summarize the changes in the loss allowance for loans and receivables between the beginning and the end of the annual period:

	Stage 1	Stage 2	Stage 3	Total
	12-month ECL	Lifetime ECL	Lifetime ECL	
Allowance for credit losses				
At January 1, 2025	7,321,494	54,480	35,194,472	42,570,446
Provision for credit losses for the year				
Transfers:				
Transfer in (out of) Stage 1	-	-	-	-
Transfer in (out of) Stage 2	51,328	(51,328)	-	-
Transfer in (out of) Stage 3	-	-	-	-
New financial assets originated	14,157,445	-	-	14,157,445
Financial assets derecognized during the period	(6,709,485)	-	(570)	(6,710,055)
Changes in PD, EAD and LGD	79,762	(3,152)	(28,850)	47,760
	7,579,050	(54,480)	(29,420)	7,495,150
At December 31, 2025	14,900,544	-	35,165,052	50,065,596

	Stage 1	Stage 2	Stage 3	Total
	12-month ECL	Lifetime ECL	Lifetime ECL	
Allowance for credit losses				
At January 1, 2024	7,463,947	82,727	32,316,250	39,862,924
Provision for credit losses for the year				
Transfers:				
Transfer in (out of) Stage 1	-	-	-	-
Transfer in (out of) Stage 2	8,706	(8,706)	-	-
Transfer in (out of) Stage 3	-	-	-	-
New financial assets originated	3,330,450	-	-	3,330,450
Financial assets derecognized during the period	(236,299)	-	(155,752)	(392,051)
Changes in PD, EAD and LGD	(3,245,310)	(19,541)	3,033,974	(230,877)
	(142,453)	(28,247)	2,878,222	2,707,522
At December 31, 2024	7,321,494	54,480	35,194,472	42,570,446

With the foregoing level of allowance for credit losses, management believes that amount is sufficient to cover any losses that may be incurred from the non-collection or non-realization of its receivables and other risk assets.

6 Bank premises, furniture, fixtures and equipment, net

The movements and the components of the account follow:

	Bank premises	Furniture, fixtures and equipment	Transportation equipment	Total

Balance at beginning of year	152,136,645	100,776,621	1,900,100	254,813,366
Additions	-	11,622,300	-	11,622,300
Reclassification	-	(150,000)	-	(150,000)
Balance at end of year	152,136,645	112,248,921	1,900,100	266,285,666
Accumulated depreciation				
Balance at beginning of year	73,032,196	68,067,865	1,803,367	142,903,428
Depreciation	3,280,024	11,068,219	96,733	14,444,976
Balance at end of year	76,312,220	79,136,084	1,900,100	157,348,404
Net carrying amounts, December 31, 2024	75,824,425	33,112,837	-	108,937,262

Management believes that there are no indications that the bank premises, furniture, fixture and equipment are impaired.

Certain furniture, fixtures and equipment completed in 2024 are reclassified from construction-in-progress under Other assets (Note 7).

In 2025, certain retired furniture, fixtures and equipment and transportation equipment were sold amounting to P634,150 (2024 - P2,500).

7 Other assets, net

The account as at December 31 consists of:

	2025	2024
Computer software, net	19,449,423	27,611,899
Construction in progress	861,950	231,950
Miscellaneous deposits	5,822,541	5,566,221
Real and other properties acquired (ROPA)	3,140,238	3,652,581
Miscellaneous assets	4,024,275	1,478,391
Prepaid expenses	8,606,527	10,538,179
	41,904,954	49,079,221

The movements of computer software follow:

	2025	2024
Cost		
At beginning of year	101,238,675	77,996,922
Additions	47,040	19,321,753
Reclassification	-	3,920,000
At end of year	101,285,715	101,238,675
Accumulated amortization		
At beginning of year	73,626,776	65,071,706
Amortization during the year	8,209,516	8,555,070
At end of year	81,836,292	73,626,776
Net carrying amount	19,449,423	27,611,899

The cost of certain computer software completed in 2024 was reclassified from construction-in-progress under Other assets.

Miscellaneous deposits pertain to rental deposits and other deposits to various suppliers.

Miscellaneous assets consist mainly of documentary stamp taxes and office supplies.

8 Deposit liabilities

The account as at December 31 consists of:

	Note	2025	2024
Special savings	18	580,688,497	343,845,612
Demand		286,251,667	216,506,931
Savings		52,596,848	69,620,303
		919,537,012	629,972,846

The Bank's deposits bear annual interest at rates ranging from 0% to 6% in 2025 and 2024.

As at December 31, 2025, the Bank has complied with the required statutory and legal reserves amounting to nil (2024 - P5.64 million) (Note 2).

The details of interest expense on deposit liabilities for the years ended December 31 are as follows:

	2025	2024
Special savings	22,191,236	12,862,291
Savings	179,288	161,905
Demand	162,214	106,757
	22,532,738	13,130,953

9 Accrued interest and other expenses

The account as December 31 consists of:

	2025	2024
Accrued interest	6,403,965	3,583,649
Accrued expenses		
Staff benefits	3,113,411	5,395,199
Taxes	2,459,481	1,937,070
Management and other professional fees	3,454,138	1,080,146
Others	1,544,567	4,291,143
	16,975,562	16,287,207

Others include accrual for general and administrative expenses other than staff benefits and management and other professional fees.

10 Other liabilities

The account as at December 31 consists of:

	2025	2024
Accounts payable and other liabilities	15,234,323	12,665,958
Payment orders payable	2,770,773	-
Withholding tax	691,506	2,399,415
SSS, Philhealth, and Pag-ibig contributions payable	313,060	287,665
Others	2,400	301
	19,012,062	15,353,339

Accounts payable include unclaimed balances and unpaid purchases from various suppliers. The unclaimed balances refer to the deposits held by the Bank in favor of depositors known to be dead or unheard for ten years or more which have not been turned over to the Treasurer of the Philippines pursuant to the provisions of the Unclaimed Balances Act (Act No. 3936, as amended).

11 Share capital

The account as at December 31 consists of:

	2025	2024
Authorized capital stock	3,000,000,000	3,000,000,000
Issued and outstanding (at P1 par value per share)	2,400,000,000	2,400,000,000

Under MORB Section 121, the Bank has complied with the minimum capitalization set by the BSP which is P500 million for thrift banks with head office only in Metro Manila.

12 Accumulated other comprehensive income (loss), net

The account as at December 31 consists of:

	2025	2024
Cumulative actuarial gain on retirement	2,662,688	856,902
Unrealized fair value income (loss) on investment securities at FVOCI	3,114,825	(27,794,932)
	5,777,513	(26,938,030)

The amounts above are presented net of deferred tax effect.

The movement in unrealized fair value income (loss) on investment securities at FVOCI follow:

	Notes	2025	2024
At beginning of year		(27,794,932)	(41,201,830)
Fair value gain (loss) on OCI	4	41,277,707	17,742,131
Tax effect	15	(10,367,950)	(4,335,233)
At end of year		3,114,825	(27,794,932)

13 Service charges and fees, net

Details of service charges and fees for the years ended December 31 are as follows:

	2025	2024
Penalties	76,134	(1,195,383)
Service charges and fees from:		
Remittances	442,873	535,699
Deposits	55,804	222,724
Loan issuances	3,303,209	147,094
Others	131,242	196,415
	4,009,262	(93,451)

14 Other expenses

Details of other expenses for the years ended December 31 are as follows:

	2025	2024
Repairs and maintenance	19,510,526	16,459,643
Postage, telephone, cable and telegram	9,563,537	8,623,808
Professional fees	4,016,453	7,539,490
Power, light and water	3,638,107	3,423,180
Documentary stamps used	3,467,315	2,243,665
Security, messenger and janitorial	3,141,677	2,889,169
Director's fees	1,440,000	2,040,000
Insurance	2,099,829	1,849,815
Banking fees	1,507,196	1,463,451
Membership fees and dues	1,515,592	1,462,294
Travel and representation	1,042,255	946,608
Supervision fees	389,385	299,993
Others	2,092,960	2,492,535
	53,424,832	51,733,651

Others consist mainly of trainings and seminar, stationery and supplies used, rental, inquiry and verification fees, and fuel.

15 Income tax expense; Deferred tax assets (DTA), net

The following are the components of income tax expense for the years ended December 31:

	2025	2024
Current	12,330,576	13,587,347
Deferred	(1,959,956)	642,479
	10,370,620	14,229,826

A reconciliation between the income tax expense at the statutory rates and income tax expense at effective tax rate follows:

	2025	2024
Loss before income tax	(28,036,311)	(15,849,348)
Tax benefit on pretax loss at 25%	(7,009,078)	(3,962,337)
Tax effects of:		
Unrecognized NOLCO and MCIT	17,383,326	18,326,869
Non-deductible expenses	3,574,990	2,991,279
Income subjected to lower income tax rates	(460,775)	(2,646,414)
Others	(3,117,843)	(479,571)
Effective income tax expense	10,370,620	14,229,826

The components of the Bank's deferred tax assets and liabilities as at December 31 are as follows:

	2025	2024
Deferred tax assets		
Unrealized fair value loss on bond investment at FVOCI	19,106	10,417,058
Allowance for credit losses	12,545,592	10,699,590
Retirement liability	576,100	1,615,787
	13,140,798	22,732,435
Deferred tax liabilities		
Unrealized fair value gain on equity investments	(546,270)	(576,270)
Unrealized foreign exchange gain	(348,000)	(899,713)
	(894,270)	(1,475,983)
Deferred tax assets, net	12,246,528	21,256,452

Deferred income tax assets are recognized only to the extent that taxable income will be available against which the deferred income tax assets can be used. The Bank did not recognize deferred income tax assets on its NOLCO and MCIT in 2025 since the Bank does not expect that it will generate sufficient taxable income to allow all or part of its NOLCO and MCIT in 2025 to be utilized.

The details of the Bank's unexpired NOLCO are as follows:

Year of Incurrence	Year of Expiration	2025	2024
2025	2028	56,107,127	-
2024	2027	60,599,613	60,599,613
2023	2026	72,164,997	72,164,997
2022	2025	93,699,852	93,699,852
2021	2026	90,697,567	90,697,567
2020	2025	86,106,183	86,106,183
		459,375,339	403,268,212
Expired during the period		(86,106,183)	
NOLCO not recognized		(373,269,156)	(403,268,212)
		-	-
Tax rate		25%	25%
Deferred income tax asset on NOLCO		-	-

As at December 31, the Bank has MCIT that can be claimed as deduction from future income tax payable as follows:

Year of Incurrence	Year of Expiration	2025	2024
2025	2028	1,558,957	-
2024	2027	1,103,405	1,103,405
2023	2026	523,645	523,645

16 Employee benefits

16.1 Compensation and employee benefits

Compensation and employee benefits for the years ended December 31 consist of:

	2025	2024
Salaries and wages	33,497,673	37,477,695
Retirement benefits expense	2,562,651	3,049,710
Other employee benefits	16,996,953	16,449,127
	53,057,277	56,976,532

Other employee benefits mainly include fringe benefits and SSS, Pag-ibig and Philhealth contributions.

16.2 Retirement benefits

The Bank accrues retirement benefits based on an annual actuarial valuation report covering regular and qualified employees.

The Bank maintains a non-contributory defined benefit type plan which provides a retirement benefit equal to 100% of Plan Salary for every year of credited service. Benefits are paid in lump-sum upon retirement or separation in accordance with the terms of the Plan.

The Bank's latest actuarial valuation was performed as at December 31, 2025.

Details of the retirement benefits obligation recognized in the statement of financial position as at December 31 are as follows:

	2025	2024
Present value of benefit obligations	7,934,269	9,467,581
Fair value of plan assets	(5,629,871)	(3,004,431)
Retirement benefit obligation	2,304,398	6,463,150

Details of the retirement benefits expense recognized in profit or loss for the years ended December 31 are as follows:

	2025	2024
Current service cost	2,299,966	2,836,015
Net interest cost	262,685	213,695
	2,562,651	3,049,710

Details of the retirement benefits expense recognized in other comprehensive income for the years ended December 31 are as follows:

	2025	2024
Remeasurement gain (loss) - defined benefit liability	2,589,568	(492,093)
Remeasurement loss - plan assets	(181,853)	(162,844)
	2,407,715	(654,937)

The movements in the present value of retirement benefits obligation are as follows:

	2025	2024
At beginning of year	9,467,581	7,133,034
Current service cost	2,299,966	2,836,015
Interest cost	523,619	432,597
Remeasurements		
Loss (gain) from changes in financial assumptions	(222,715)	20,746
Loss (gain) from experience adjustments	(2,366,853)	471,347
Benefits paid	(1,767,329)	(1,426,158)
At end of year	7,934,269	9,467,581

The defined benefit obligation related to key management employees as at December 31, 2025 is P5,993,028 (2024 - P6,953,931).

The movements in the fair value of plan assets are as follows:

	2025	2024
At beginning of year	3,004,431	2,174,779
Contributions	3,495,775	2,199,752
Interest income	260,934	218,902
Remeasurement loss on return on plan asset	(181,853)	(162,844)
Benefits paid	(949,416)	(1,426,158)
At end of year	5,629,871	3,004,431

Plan assets at December 31, 2025 comprise of 49.66% (2024 - 39.40%) cash and cash equivalents, 50.17% (2024 - 60.54%) investment in trust fund and 0.17% (2024 - 0.06%) interest receivable which the carrying amount approximates its fair value at said dates.

The actuarial assumptions used to determine retirement benefit obligation as at December 31 are as follows:

	2025	2024
Discount rate	6.44%	6.10%
Salary increase rate	3.00%	3.00%

16.3 Discount rate sensitivity

The following illustrates the sensitivity to a reasonably possible change in each key assumption, with all other variable held constant, of the Bank's accrued retirement benefits. The sensitivity analysis is prepared assuming the fair value of asset does not vary during the period. The methods and assumptions are the same in prior years. A 100 bps increase, or decrease is used when reporting this risk internally to key management personnel and represents management's assessment of the reasonably possible change in discount rate and salary increase. The impact on the Bank's retirement benefits obligation which affects the Bank's cash flow is as follows:

	Increase in assumption	Decrease in assumption
December 31, 2025		
Discount rate	(586,583)	685,009
Salary growth rate	729,653	(633,027)
December 31, 2024		
Discount rate	(696,609)	809,104
Salary growth rate	861,086	(751,093)

Expected maturity analysis of retirement obligation follow:

	Less than 1 year	Between 1-5 years	Over 5 years
December 31, 2025	96,345	6,316,232	62,752,467
December 31, 2024	132,743	7,573,439	67,537,615

The expected contribution to the retirement benefit plan in 2025 amounts to P2,954,243 (2024 - P3,892,993).

Except for the disclosure above and the preceding pages, no other transaction occurred with the retirement plan as at December 31, 2025 and 2024.

17 Related parties

The Bank, in the normal course of business, has transactions with related parties. The following are the specific relationships, amount of transactions, account balances, the terms and conditions and the nature of the consideration to be provided in the settlement.

2025	Transactions for the year	Outstanding balances	Terms
Deposits from			These are demand, savings and special savings deposits bearing interest rates ranging from 0.075% to 6.00%.
Key management personnel	3,413,615	5,432,908	

2024	Transactions for the year	Outstanding balances	Terms
Interbank loans payable from Parent Bank	\$10,000	-	These borrowings are unsecured and are settled in cash upon maturity, with 6% interest rates in 2024
Deposits from			These are demand, savings and special savings deposits bearing interest rates ranging from 0.075% to 5.00%.
Key management personnel	1,368,287	2,637,089	

The aggregate amounts included in the determination of income before income tax for the years ended December 31 that resulted from transactions with each class of related parties are as follows:

	2025	2024
Interest expense		
Parent Bank	-	746
Key management personnel	134,259	88,009
Salaries, allowances and other short-term benefits		
Key management personnel	28,273,543	30,215,046

17.1 Loans and credit accommodations to directors, officers, stockholders and other related interests (DOSRI)

The Bank, from time to time, provides financial assistance to officers and employees, as part of the Bank's benefit program, to meet housing, transportation, household and personal needs of officers and employees subject to the terms and conditions approved by the BSP. As at December 31, 2025, the Bank has interest-bearing, unsecured and unimpaired outstanding loans with DOSRI amounting to P222,222 (2024 - P647,569). The Bank has fully complied with BSP rules on DOSRI loans.

17.2 Remuneration of key management personnel

The salaries and employee benefits given to the Bank's key management personnel for the year ended December 31, 2025 amount to P28,273,543 (2024 – P30,215,046). Key management personnel include managerial and higher-level positions.

18 Significant contracts

On August 8, 2006, the Bank executed a memorandum of agreement with the Philippine Retirement Authority (PRA) which qualified the Bank as a depository or trustee for the requisite deposit of the retirees under the Retirement Program of the PRA. Under the program, the qualified retirees are required to open a time deposit, trust account or any other instrument that the Bank offers and will earn interest at a rate of 2% per annum. Upon maturity, unless otherwise directed by the retiree, the net interest earned will then become part of the principal.

As at December 31, 2025, total special savings deposits pertaining to this program amount to P23.9 million (2024 - P28.1 million) and included under "Special savings" in deposit liabilities (Note 8). Under the agreement, certain conditions should be met for the Bank to qualify as a depository unit of PRA, these include, but not limited to the following: maintenance of a capital adequacy, asset quality, management, earnings, liquidity risk, and sensitivity to market risk (CAMELS) rating of at least "3" from the BSP. As at December 31, 2025 and 2024, the Bank had satisfactorily complied with these PRA requirements.

19 Critical accounting judgments and estimates

The preparation of the financial statements in compliance with the Philippine Financial Reporting Standards (PFRS) requires management to make judgments and estimates that affect amounts reported in the financial statements. The judgments and estimates used in the financial statements are based upon management's evaluation of facts and circumstances at the end of the reporting period. Actual results could differ materially from such estimates.

Estimates and judgments are continuously evaluated and are based on historical experience and other factors, including expectations of future events, which are believed to be reasonable under the circumstances.

19.1 Critical accounting judgments

Realization of deferred income tax assets (Note 15)

Management reviews at each reporting date the carrying amounts of deferred tax assets. The carrying amount of deferred tax assets is reduced to the extent that the related tax assets cannot be utilized due to insufficient taxable profit against which the deferred tax losses will be applied.

19.2 Critical accounting estimates

Measurement of the expected credit loss for loans and receivables under PFRS 9 (Note 5)

The measurement of the expected credit loss (ECL) for loans and receivables is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior (e.g. the likelihood of customers defaulting and the resulting losses).

A number of significant judgments are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product and the associated ECL; and
- Establishing groups of similar financial assets for the purposes of measuring ECL.

A table showing the forecast of the key forward-looking economic variables used in each of the economic scenarios for the ECL calculations for financial year ended December 31, 2025 and 2024 can be found in Note 20.3

Allowance for credit losses on loans and receivables amounts to P50,065,596 and P42,570,446 as at December 31, 2025 and 2024, respectively.

Estimated useful lives of bank premises, furniture, fixtures and equipment, and computer software (Notes 6 and 7)

The Bank estimates the useful lives of its bank premises, furniture, fixtures and equipment, and computer software based on the period over which the assets are expected to be available for use. The estimated useful lives are reviewed at least annually and are updated if expectations differ from previous estimates due to physical wear and tear. The estimation of the useful lives of the bank premises, furniture, fixtures and equipment and computer software are based on a collective assessment of industry practice and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in the factors mentioned above.

The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of the bank premises, furniture, fixtures and equipment and computer software would increase recorded operating expenses and decrease the related assets.

Estimated retirement benefits obligation (Note 16)

The determination of the Bank's obligation and cost of pension and other retirement benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described in Note 16 and include, among others, discount rates and salary increase rate. In accordance with PFRS, actual results that differ from the assumptions are accumulated and amortized over future periods and therefore, generally affect the recognized expense and recorded obligation in such future periods.

Retirement benefit obligation as at December 31, 2025 and 2024 is disclosed in Note 16.

20 Financial risk and capital management

20.1 Financial risk management objectives and policies

The Bank's operation involves the traditional banking activities of deposit-taking and lending to qualified individual or corporate borrowers and use of financial instruments. The Bank is exposed to the following risks from its use of financial instruments: (a) credit; (b) liquidity; (c) interest rate; (d) foreign currency; and (e) price risks.

The Bank is exposed to a variety of financial risks which results from its operating and investing activities. The Bank's risk management focuses on actively securing the Bank's short to medium term cash flows by minimizing the exposure to financial markets. Long-term financial investments are managed to generate lasting returns.

Risk management structure and process

The Bank has established sound risk management practices which include appropriate and reasonable contingency plans in handling risks and to guide the Bank's management and BOD to understand, measure, monitor and control the risk assumed, adopt risk management practices whose sophistication and effectiveness are commensurate to the risk being monitored and controlled, and maintain capital commensurate with the risk exposure assumed.

The BOD and Senior Management of the Bank are ultimately responsible for the oversight of the Bank's risk management process. The BOD is responsible for understanding the nature and the level of risks taken by the Bank. The Senior Management is responsible for ensuring that risks are adequately managed both long-term and day-to-day basis. The Bank's BOD is in-charge of the implementation of the risk management process which includes, among others, the development of various risk strategies and principles, control guidelines, policies and procedures, implementation of risk measurement tools, monitoring of key risk indicators, and the imposition and monitoring of risk limits.

To effectively manage the risks, the Bank identifies current and prospective risk exposures by understanding the sources of risks arising from the Bank's existing or new business initiatives. The head of each department identifies various risks on their current and future operations/products or services. Identifying risk includes identifying the Bank's desired level of risk exposure (risk appetite) based on its ability and willingness to assume the risk.

Risk appetite is set by the Bank's BOD after discussion of the impact, likelihood and alternative ways to manage risk with various department heads. Risk identification is a continuing process and occurs at both the transaction and portfolio level.

Once the sources of risks have been identified, risk measurement models are applied to quantify the Bank's risk exposures. Risk measurement systems and methodologies are integrated in the Bank's risk management process and results are interpreted in coordination with other risk exposures. The Bank's Asset and Liability Committee (ALCO) is responsible for the assessment of possible liquidity risks by establishing indicators of potential risk, assessment and matching potential sources of funds, and monitoring of internal as well as market indicators of liquidity problems of the Bank. ALCO is also responsible for communicating potential exposure of the Bank to interest risk and foreign currency risk to the Senior Management and BOD. The Bank has also created a Credit Committee (CRECOM) which is responsible for the stringent evaluation and approval of loans and for remedial actions on problematic loan accounts.

The Bank maintains an adequate system of internal controls to ensure the integrity of its risk management process. These internal controls are integral part of the Bank's overall system of control. An independent internal audit review on the risk management process is performed on an annual basis. The Internal Audit Department is mandated to conduct annual review and results are reported to the Audit Committee and Senior Management for proper action. The ALCO also conducts review of the guidelines and introduces revisions on the risk management process. The review of risk management process also includes assessment of the assumptions, parameters, and measures used.

20.2 Impairment assessment

The references below show where the Bank's impairment assessment and measurement approach is set out in this report. It should be read in conjunction with the summary of significant accounting policies.

- The Bank's definition and assessment of default and cure (Note 20.2.1)
- An explanation of the Bank's internal grading system (Note 20.5.5)
- How the Bank defines, calculates and monitors the probability of default, exposure at default and loss given default (Note 20.3)
- When the Bank considers there has been a significant increase in credit risk of an exposure (Note 20.2.3)
- The Bank's policy of segmenting financial assets where ECL is assessed on a collective basis (Note 20.2.4)
- The details of the ECL calculations for Stage 1, Stage 2 and Stage 3 assets (Note 20.5.5)

20.2.1 Definition of default and cure

The Bank considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. The following enumerates the events triggering default for each financial asset:

(a) Receivables from customers

- i. Principal or interest payments over 3 months (90 days) past due, or the bank has begun collection procedures or liquidation of collateral
- ii. Cases where the court has initiated reorganization or liquidation proceedings
- iii. Declaration of bankruptcy in court
- iv. Debtor's loans from other banking institutions have been recognized as nonperforming, and reclassified as non-accrual or written off as bad debts.
- v. Debtor has filed for bankruptcy, reorganization, or other debt clearance proceedings
- vi. Loans classified as "in default" according to the Bank's internal credit rating model

(b) Investments in debt instruments/ Due from BSP and other banks

- i. External credit ratings of the instrument are "in default"
- ii. Principal or interest payments over 3 months (90 days) past due, or are not made in accordance with the agreement
- iii. Bankruptcy, reorganization, or other debt clearance proceedings has been filed
- iv. Other breaches of contract by the debtor as assessed on a case-by-case basis

(c) Other financial assets

- i. Miscellaneous deposits: At the balance sheet date, the deposit has not been returned at maturity or overdue from the collection date, unless the contractual terms specify it.
- ii. Remaining receivables: At the balance sheet date, the borrower is more than 90 days past due on its contractual payments.

It is the Bank's policy to consider a financial instrument as 'cured' and therefore re-classified out of Stage 3 when none of the default criteria have been present. The decision whether to classify an asset as Stage 2 or Stage 1 once cured depends on the updated indicators at the time of the cure, and the asset no longer showing significant increase in credit risk compared to initial recognition.

20.2.2 *Write-offs*

The Bank writes off financial assets when there is no reasonable expectation of recovery, after considering collection efforts, legal remedies, and recoverability of collateral. Write-offs are recognized directly in profit or loss and do not extinguish the Bank's right to pursue recovery where legally permissible. The key circumstances for write-off include the following:

(a) Unsecured loans

- Loans classified as loss with no payments received for the last two (2) years;
- Loans classified as loss where the borrower has filed for insolvency or ceased operations and no payments have been made for the last one (1) year;
- Loans classified as loss where the borrower is deceased and recovery is no longer possible from insurers, co-makers, or sureties; and
- Other circumstances which, based on management's evaluation, warrant write-off.

(b) Secured loans

- Loans classified as loss with no payments received for the last two (2) years and foreclosure is not possible due to legal defects or restrictions; and
- Loans classified as loss with no payments received for the last two (2) years and the collateral is assessed to have no recoverable value; and
- Other circumstances which, based on management's evaluation, warrant write-off.

(c) Other receivables

- Receivables classified as loss arising incidentally from borrowers' written-off loan obligations;
- Receivables from other transactions that are long outstanding, with no payments received for two (2) years, and with remote prospects of recovery; and
- Other circumstances which, based on management's evaluation, warrant write-off.

20.2.3 *Significant increase in credit risk (SICR)*

The Bank continuously monitors all assets subject to ECL. In order to determine whether an instrument or a portfolio of instruments is subject to 12-month ECL or lifetime ECL, the Bank assesses whether there has been a significant increase in credit risk since initial recognition.

At every balance sheet date, the Bank assesses the change in default risk over the lifetime of each financial asset to determine whether there has been a significant increase in credit risk since initial recognition. The Bank considers reasonable and supportable information (including forward-looking information) when determining whether there has been significant increase in credit risk. The main indicators taken into account for each financial asset are as follows:

(a) Receivables from customers

- i. The borrower is over 30 days past due.
- ii. The Bank's internal credit rating of the asset is equivalent to a non-investment grade rating by an external agency, and the rating has dropped by more than two scales since initial recognition.
- iii. Records of bad credit are confirmed after assessment

(b) Investments in debt instruments/ Due from BSP and other banks.

- i. The Bank's internal credit rating of the asset is equivalent to a non-investment grade rating by an external agency, and the rating has dropped by more than two scales since initial recognition.
- ii. The contractual payments of counterparties are more than 30 days past due.

(c) Other financial assets

- i. Miscellaneous deposits: At the balance sheet date, the deposit has not been returned at maturity.
- ii. Other receivables: At the balance sheet date, the borrower is more than 30 days past due on its contractual payment.

20.2.4 Grouping of financial assets measured on a collective basis

Depending on the factors below, the Bank calculates ECL either on a collective or an individual basis.

Financial assets subject to ECL that have been assessed individually but for which no impairment is required and all individually insignificant exposure are then assessed collectively, in groups of assets with similar credit risk characteristics.

The Bank groups these exposure into smaller homogeneous portfolios, based on a combination of internal and external characteristics of the loans.

20.3 Analysis of inputs to the ECL model under multiple economic scenarios

An overview of the approach to estimating ECLs is set out in Note 21 Summary of material accounting policies and in Note 19 Critical accounting judgments and estimates.

The following table shows the forecast of the key forward-looking economic variables used in each of the economic scenarios for the ECL calculations for financial year ended December 31, 2025 and 2024. The figures for "Subsequent years" represent a long-term average and the same are applied for each scenario.

Key variables (2025)	ECL scenario	Assigned probabilities (%)	Next 12 months	2 to 5 years (Average)
GDP (in billion pesos)	Base scenario	25	22,244.36	22,244.36
	Upside	25	22,244.36	22,244.36
	Downside	50	14,990.91	14,990.91
Unemployment (%)	Base scenario	25	3.80	3.80
	Upside	25	3.80	3.80
	Downside	50	10.30	10.30
Trade balance (as % of GDP)	Base scenario	50	(11.57)	(11.57)
	Upside	20	(10.09)	(10.09)
	Downside	30	(20.57)	(20.57)
Net foreign direct investments flows (Growth rate in %)	Base scenario	50	(14.47)	(14.47)
	Upside	20	56.21	56.21
	Downside	30	(68.83)	(68.83)
Overall balance of payments (In million US\$)	Base scenario	50	(2,630.31)	(2,630.31)
	Upside	20	(4,729.74)	(4,729.74)
	Downside	30	3,676.21	3,676.21
Overall surplus/deficit (as % of GDP)	Base scenario	50	(2.54)	(2.54)
	Upside	20	3.87	3.87
	Downside	30	(5.82)	(5.82)
Exports (Growth rate in %)	Base scenario	50	0.40	0.40
	Upside	20	(10.19)	(10.19)
	Downside	30	9.83	9.83

Key variables (2024)	ECL scenario	Assigned probabilities (%)	Next 12 months	2 to 5 years (Average)
GDP (in billion pesos)	Base scenario	25	10,161.79	10,161.79
	Upside	25	21,051.76	21,051.76
	Downside	50	14,096.05	14,096.05
Unemployment (%)	Base scenario	25	4.70	4.70
	Upside	25	4.40	4.40
	Downside	50	10.30	10.30
Trade balance (as % of GDP)	Base scenario	50	(14.59)	(14.59)
	Upside	20	(3.52)	(3.52)
	Downside	30	(20.57)	(20.57)
Net foreign direct investments flows (Growth rate in %)	Base scenario	50	(70.20)	(70.20)
	Upside	20	48.30	48.30
	Downside	30	(70.20)	(70.20)
Overall balance of payments (In million US\$)	Base scenario	50	1,203.64	1,203.64
	Upside	20	(4,730.00)	(4,730.00)
	Downside	30	9,144.00	9,144.00
Overall surplus/deficit (as % of GDP)	Base scenario	50	1.27	1.27
	Upside	20	9.10	9.10
	Downside	30	(5.82)	(5.82)
Exports (Growth rate in %)	Base scenario	50	(1.75)	(1.75)
	Upside	20	(22.56)	(22.56)
	Downside	30	22.17	22.17

Sensitivity analysis

The loan portfolios have different sensitivities to movements in macroeconomic variables, so the above three scenarios have varying impact on the expected credit losses of the Bank's portfolios. The allowance for impairment is calculated as the weighted average of expected credit losses under the baseline, upside and downside scenarios. The impact of weighting these multiple scenarios was a decrease in the allowance for impairment by (P3,418,405) from the baseline scenario as of December 31, 2025 (2024 - P4,342,152).

20.4 Financial instrument by category

2025	Fair value through other comprehensive income	At amortized cost	Total
Cash and other cash items	-	13,526,422	13,526,422
Due from BSP	-	463,449,304	463,449,304
Due from other banks	-	36,034,915	36,034,915
Investments securities at FVOCI	64,513,573	-	64,513,573

	990,703,424	1,469,155,584	2,459,859,008

	At amortized cost	Total
Deposit liabilities	629,972,846	629,972,846
Accrued interest and other expenses	16,287,207	16,287,207
Manager's checks	2,108,648	2,108,648
Accounts payable and other liabilities	12,665,958	12,665,958
	661,034,659	661,034,659

20.5 Credit risk

Credit risk is the risk of financial loss arising from the borrowers' inability to meet their contractual obligation. The Bank's operation involves the traditional banking activities of deposit-taking and lending to qualified individual or corporate borrowers. Financial problems may arise from lending activities specifically from failure of the borrowers to pay their obligation on time, poor monitoring of documentary requirements that are required to be submitted annually, or failure to regularly monitor the submission of updated reports for active accounts.

20.5.1 Credit risk management

The following guidelines are being implemented by the Bank to mitigate credit risk:

(a) Collection management guidelines

This defines the collection or recovery process of delinquent accounts, the policies on loan loss provisioning, restructuring of accounts, writing off delinquent accounts, compromise agreements and other matters on collection.

(b) Credit guidelines for loans

This defines the requirements, features, qualifications of loan products being offered by the Bank. It includes the process from loan application to approval and monitoring. The following were performed by the Bank to manage credit risk:

- The Bank offers loan products to qualified individuals and corporate clients based on sound and prudent bank practices and in accordance with its existing policies;
- Extending loan facilities to qualified individuals, by taking into consideration the character, capacity, collateral and condition of each borrower;
- For loans that are secured by collaterals, the Bank ensures that it can annotate its mortgage and therefore, protect its legal interest thereto; and
- The Bank ensures that loans are approved by the CRECOM and BOD based on set limits.

Credit rating of corporate finance is categorized into 10 levels according to the risk assessment on each credit extension case. When a loan is granted, in addition to the credit quality of the client, fund purpose, and repayment source, the protection of claims and credit prediction should be considered, and credit risk by credit account and facility should also be respectively assessed and rated based on the corporate or consumer risk rating referencing standards.

Credit risk rating of consumer finance is categorized by client category, client profession and the rating of collateral threshold.

20.5.2 Maximum exposure to credit risk

The table below shows the maximum exposure to credit risk of the Bank as at December 31:

	2025	2024
On-balance sheet		
Due from Bangko Sentral ng Pilipinas	463,449,304	57,950,644
Due from other banks	36,034,915	39,117,756
Investment debt securities at FVOCI	58,713,573	984,703,424
Investment securities at amortized cost	199,320,741	256,679,348
Loans and receivables	2,025,410,445	1,139,148,996
Miscellaneous deposits	5,822,541	5,566,221
Off-balance sheet		
Undrawn loan commitments	300,000,000	29,000,000
	3,088,751,519	2,512,166,389

Investments securities at amortized cost and loans and receivables are presented gross of allowance for credit losses.

20.5.3 Credit risk concentration profile

Credit risk exposure is also analysed by industry as of December 31 in respect of the Bank's on-balance and off-balance sheet financial assets as set out below:

2025	Due from BSP	Due from other banks	Investment securities at FVOCI	Investment securities at amortized cost	Loans and receivables	Miscellaneous deposit	Commitment and contingent accounts	Total
Financial institutions	463,449,304	36,034,915	58,713,573	2,886,139	903,974,625	-	300,000,000	1,765,058,556
Sovereign	-	-	-	196,434,602	872,510	-	-	197,307,112
Transportation and automotive	-	-	-	-	-	-	-	-

Others	-	-	-	-	15,293,499	4,955,043	-	20,248,542
	57,950,644	39,117,756	984,703,424	256,679,348	1,139,148,996	5,566,221	29,000,000	2,512,166,389

20.5.4 Collateral

The Bank holds collateral against specific type of loans and receivables in the form of real estate mortgage (REM), chattel and mortgage interests, other registered securities over assets, hold-out agreements and guarantees such as post-dated checks. Estimates of fair value (for determining loanable amount) are based on the value of collateral assessed at the time of borrowing. Collateral generally is not held over loans and receivables to other banks, except when securities are held as part of reverse repurchase and securities borrowing activity.

The fair value of real and chattel mortgage held as collateral against loans and receivables amounts to P409 million and P357 million as at December 31, 2025 and 2024, respectively.

20.5.5 Credit quality of financial assets

(a) Loans and receivables, net

In response to the characteristics and scale of business, the Bank sets up credit quality rating for risk management purposes (such as implementing internal evaluation model of credit risk, setting up credit rating table or other relevant regulations).

The Bank, using statistical methods and expert professional judgment, as well as the consideration of client information, developed a business credit rating model for the purpose of evaluating the credit risk of corporate clients. The model is regularly reviewed to check if the calculation result is consistent with the actual situation, and adjustment of various inputs is calibrated to optimize the calculation result.

The credit quality of borrowers can be divided into four risk categories, which are set out and defined below, from very low to high, apart from impaired:

Credit risk rating	Corporate	Consumer
	Internal credit ratings mapped to S&P's ratings	Internal credit ratings
Very low	AAA to A-	Obligors rated in this category have an excellent capacity to meet financial commitments with very low credit risk.
Low	BBB+ to BB+	Obligors rated in this category have a good capacity to meet financial commitments with low credit risk.
Medium	BB- to B+	Obligors rated in this category have a fairly acceptable capacity to meet financial commitments with moderate credit risk.
High	B- to CCC	Obligors rated in this category have uncertain capacity to meet financial commitments and are subject to high credit risk.

Other than the above rated risk categories, other categories used internally are as follows:

Impaired/default - Obligors with objective evidence of impairment as a result of one or more events that have an impact on the estimated future cash flows of the obligors that can be reliably estimated. The detailed definition is further disclosed in Note 20.2.1.

Unrated - Refer to obligors which are currently not assigned with obligors' ratings due to unavailability of ratings models.

(b) Investment debt securities

The risk management of the Bank's debt instruments is based on credit rating of external institutions, credit quality of bonds, condition by geographical location and counterparty risk to identify the credit risk.

The Bank assesses the credit quality of debt instrument investments similar to corporate loans from very low to high risk based on their external credit ratings.

(c) Due from BSP and other banks

The Bank assesses the credit status of each counterparty before any transaction, and ratings assigned by domestic and foreign external ratings agencies are used in determining internal credit grades on which various credit risk exposure limits are set and then granted to different counterparties.

(d) Other financial assets at amortized cost

For other financial assets (accounts receivable and miscellaneous deposits), the Bank applies the PFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected credit loss methodology. These financial assets are grouped based on shared risk characteristics and aging profile. For some of these, impairment is assessed individually at a counterparty level.

The following table sets out the credit quality of financial assets by category:

Loans and receivables

	2025 ECL Staging			Total
	Stage 1 12-month ECL	Stage 2 Lifetime ECL	Stage 3 Lifetime ECL	
Credit risk				
Low	1,781,673,040	-	-	1,781,673,040

Allowance for impairment loss	(35,165,052)	(35,194,472)
	3,053	36,394
Fair value of collateral	-	-

20.6 Liquidity risk

Liquidity represents the ability to fund assets and meet obligations as they become due. It is essential for banks to compensate for expected and unexpected balance sheet fluctuations and provide funds for growth. To manage liquidity risk, the Bank has established Liquidity Risk Management Practices (LRMP) to ensure that the Bank is able to maintain a level of liquidity sufficient to meet its financial obligations in a timely manner. The Bank's LRMP also reflects the ability of the Bank to manage unplanned changes in funding sources, as well as to react to changes in market conditions that affect the ability to quickly liquidate assets with minimal loss. It also includes evaluating various funding sources and the costs associated with the sources identified.

Funding diversification allows the Bank to maintain access to different funding lines and allows more flexibility in selecting the appropriate funding source.

The Bank uses the following risk measurement methodologies to measure liquidity risk exposure:

a) *Risk impact and likelihood rating guide*

- No. 1 rating - may occur only in exceptional circumstances
- No. 2 rating - could occur at some time (low probability of occurrence)
- No. 3 rating - might occur at some time (moderate probability)
- No. 4 rating - will probably occur in most circumstances
- No. 5 rating - is expected to occur in most circumstances and has occurred several times in the unit

b) *Daily cash level report (in Philippine peso and US dollar)*

The Bank uses daily cash level report to measure excess funds on a daily basis and exposure on day to day (short term) funding liquidity risk. It is also used to determine the sufficiency of the Bank's reserves and excess funds available for BSP overnight lend.

c) *Maturity matching*

The Bank measures the exposure on liquidity risk arising from mismatched maturities of assets and liabilities, otherwise known as "tenor gaps". In this method, the Bank's financial assets and liabilities are divided into time bands and then slots each cash inflow and outflow items according to maturity dates. The overall objective is to determine and control liquidity "gaps" and highlight long term build ups in cash inflows and outflows. A gap per time band is computed by getting the difference between the inflows and outflows within the time band. A positive liquidity gap is an estimate of the Bank's net excess funds for the time band. A negative liquidity gap is an estimate of the future funding requirements of the Bank.

The table below presents an analysis of the maturity groupings of resources and liabilities in accordance with BSP account classifications. The liability balances disclosed in the following tables are based on contractual undiscounted cash flows, which may differ from the amounts included in the statement of financial position due to certain items which are based on discounted cash flows.

December 31, 2025	1-3 months	3 months- 1 year	over 1-5 years	over 5 years	Total
Assets

Manager's check	2,108,648	-	-	-	2,108,648
Accrued interest other expenses	16,287,207	-	-	-	16,287,207
Other financial liabilities	12,665,958	-	-	-	12,665,958
	203,621,110	208,947,610	248,465,939	-	661,034,659
Gap	5,137,411	781,369,972	981,268,128	103,638,501	1,871,414,012

The Bank performs the following to mitigate exposure to liquidity risk:

- Avoiding extreme concentration of transactions in a single market and loan exposure in a single industry;
- Diversification of loan / asset exposures in different industries, the types of transactions in which the Bank will engage in and establish exposure limits per industry/per individual type of products;
- Lending and investing only in highly liquid markets;
- Consideration of the availability of alternative markets as protection against the possibility of losing access to one or more markets during periods of overall market stress;
- Requiring treasury personnel to continuously observe market conditions and notify Risk Managers/Senior Management of any indications of market illiquidity (including suspension of availment on existing credit lines);
- Requiring Account Officers and Loan Officers to continuously observe market conditions and report to Risk Managers/Senior Management any indications of stress or problems in any industry/borrower;
- Consideration of the possible need to rebalance portfolios, provide extra collateral and manage potential defaults;
- Establishment of procedures that will identify and address timing mismatches in offsetting payment and delivery obligations, such as early terminations of deposits. This will be achieved through the preparation and analysis of various reports; and
- Observation of various control limits set by the BOD to minimize exposure on liquidity risk.

In addition to the developed procedures that mitigate liquidity risk exposure, the Bank has established a contingency plan to deal with temporary and long-term liquidity disruptions.

Minimum Liquidity Ratio

On February 8, 2018, the BSP issued Circular No. 996 series of 2018 entitled Amendments to the Liquidity Coverage Ratio Framework and Minimum Prudential Liquidity requirements for stand-alone thrift banks, rural banks, cooperative banks and Quasi-bank. Under the circular, covered banks shall maintain a prudential Minimum Liquidity Ratio (MLR) of 20% which consists of liquid assets to cover qualified liabilities including off-balance sheet liabilities.

As of December 31, 2025 and 2024, the Banks MLR compliance are as follows:

	2025	2024
Stock of liquid assets	709,407,327	1,198,329,702
Qualifying liabilities	958,222,961	662,170,411
MLR compliance	74%	181%

The Bank's stock of liquid assets consists of cash and cash equivalents, due from BSP and other banks and government debt securities.

20.7 Interest rate risk

Interest rate risk is the risk that changes in market interest rates will reduce current or future earnings and/or the economic value of a financial institution. Accepting interest rate risk is a normal part of the Bank's operation and is a major source of profitability and shareholder value. Excessive or inadequately understood and controlled interest rate risk, however, can pose a significant threat to the Bank's earnings and capital. Thus, an effective risk management process that maintains interest rate risk within prudent levels is essential to ensure the safety and soundness of the Bank. The Bank classifies sources of interest rate risk as option risk and repricing.

Prepayment option risk

Option risk is presented by optionality that is embedded in some assets and liabilities. The most common example is the mortgage loan. This type of loan presents significant option risk due to prepayment option available to clients.

For salary loans and other types of loans, the clients have the option to prepay the loan or they can extend the term of the loan which has the effect of slowing down the repayment. In terms of deposit products, clients have the option to terminate deposit accounts which in turn would lessen deposit liabilities of the Bank. As at December 31, 2025, loans subject to prepayment risk represents commercial, consumption and real estate loans with an aggregate amount of P2,017,508,654 (2024 – P1,124,974,793) (Note 5). The effect of prepayment option is deemed not significant as the option price normally approximates the amortized cost of the financial instruments at option date.

Repricing risk

The simplest technique for measuring interest rate risk exposure starts with a maturity or repricing schedule that distributes interest-sensitive assets, liabilities and off-balance sheet positions into a certain number of predefined time bands according to their maturity or time remaining to their next repricing. The Bank has condominium loan products in which borrowers may choose to avail of the fixed interest rate from one (1) to five (5) years. The market rate may tend to go up or down which exposes the Bank to repricing risk. As at December 31, 2025, the Bank's condominium loans under Real estate classification which are subject to repricing risk amount to P102,424,316 (2024 – P77,042,492) (Note 5).

The Bank follows a prudent policy in managing its assets and liabilities so as to ensure that its exposure to fluctuations in interest rate is kept within acceptable limits.

The Bank adopts repricing gap analysis in analyzing its resources and liabilities based on expected interest realization and recognition.

If the analysis shows a positive gap, the Bank is exposed to the risk that interest rates will go down; however, if the analysis shows a negative gap, the Bank is exposed to the risk that interest rates will go up.

The interest rate risk profile of the Bank's assets and liabilities is as follows:

December 31, 2025	Repricing			Non-repricing	Total
	1-3 months	3 months- 1 year	1-5 years		
Assets					
Cash and other cash items	-	-	-	13,526,422	13,526,422

The Bank can tolerate a cumulative positive or negative gap of at least 35% for regular banking unit and 85% for the FCDU's total interest rate sensitive assets or liabilities and equity. Any excess thereon is communicated to the ALCO who courses through to Senior Management and BOD for proper action. The table below represents the sensitivity of the Bank's financial assets to a ± 100 basis points possible interest rate changes with all other variables held constant as at December 31:

Effect of reasonably possible shift in profit and loss	Change in interest rate	2025	2024
Interest rate-sensitive financial assets			
Due from BSP	± 100 bps	$\pm 4,620,000$	$\pm 5,000,000$
Due from other banks	± 100 bps	$\pm 235,160$	$\pm 122,182$
Investment securities at amortized cost	± 100 bps	$\pm 28,861$	$\pm 555,488$

Interbank loans payable	± 100 bps	-	-
		$\pm 5,806,885$	$\pm 3,438,456$

20.8 Foreign currency exchange risk

Foreign currency exchange risk is the risk to earnings or capital arising from changes in foreign exchange rates. In contracting to meet clients' foreign currency needs or simply buying and selling foreign exchange for its own account, the Bank undertakes a risk that exchange rates might change subsequent to the time the contract is consummated.

Most of the Bank's transactions are carried out in Philippine peso. Exposures to foreign currency exchange risk arise mainly from the foreign currency denominated due from other banks maintained by the Bank.

Foreign currency denominated financial assets as at December 31 are translated into Philippine peso at closing rate as follows:

	2025		2024	
	In US Dollar	In Philippine Peso	In US Dollar	In Philippine Peso
Financial assets				
Cash and other cash items	16,920	994,727	14,621	845,752
Due from other banks	463,286	27,236,588	305,144	17,651,052
Investment securities at FVOCI	998,700	58,713,573	1,465,680	84,782,260
Investment securities at amortized cost	846,516	49,766,686	874,949	50,611,442
Loans and receivables	13,682	804,338	16,263	940,728
Other assets	-	-	139	8,040
	2,339,104	137,515,912	2,676,796	154,839,274
Financial liabilities				
Deposit liabilities	866,018	50,913,172	1,235,195	71,449,871
Accrued interest payable	233	13,699	370	21,395
	866,251	50,926,871	1,235,565	71,471,266
Total net exposure	1,472,853	86,589,041	1,441,231	83,368,008

These balances were translated using the Bankers Association of the Philippines (BAP) peso-dollar exchange rates of P58.79 (2024 - P57.85) as at December 31, 2025. Net unrealized foreign exchange gain for the year ended December 31, 2025 amount to P1,391,999 (2024 – P3,598,850 gain).

Foreign currency-denominated deposits are generally used to fund the Bank's foreign currency denominated loans and investment portfolio in the FCDU. Banks are required by the BSP to match the foreign currency denominated liabilities with the foreign currency denominated assets held under the FCDU books. In addition, the BSP requires a 30% liquidity reserve on all foreign currency liabilities held under the FCDU. As at December 31, 2025 and 2024, the Bank is in compliance with the said regulations.

The Bank's policy is to maintain foreign currency exposure within acceptable limits and within existing regulatory guidelines.

For a 1.62% and 4.47% change in the foreign exchange rate of the Bank against relevant currency, there would be an equal and opposite impact on the pre-tax income and the effects are shown below:

	Change in FX rate	Impact on pre-tax income
December 31, 2025	+/-1.62%	+/-1,406,978
December 31, 2024	+/-4.47%	+/- 3,117,330

Exposures to foreign exchange rate fluctuation vary during the year depending on the volume of USD buying and selling transactions. Nonetheless, the analysis above is considered to be representative of the Bank's exposure to foreign currency risk.

20.9 Price risk

The Bank is exposed to price risk on the fluctuation on the price or fair value of its investments at FVOCI - quoted equity securities. It manages its risk arising from changes in market price by monitoring the

changes in the market price of the investments. The fair value of investments at FVOCI are based on published prices in the market.

The changes in the fair value of financial assets at FVOCI - quoted equity securities are deemed not significant to the financial statements during and at the end of each reporting period.

20.10 Fair value information

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follow:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

Financial asset measured at fair value

The fair value and fair value hierarchy of financial assets at fair value through other comprehensive income (FVOCI) as at December 31 are as follows:

	2025	2024	Valuation
Financial assets at FVOCI			
Level 1	58,713,573	984,703,424	Published prices
Level 2	5,800,000	6,000,000	Published prices with adjustments

Financial assets and liabilities measured at amortized cost for which fair value is disclosed

The following gives the fair value information of the Bank's investment securities at amortized cost which are not measured at fair value, but the fair values are disclosed at the end of each reporting period:

	2025		2024	
	Carrying values	Fair values	Carrying values	Fair values
Investment securities at amortized cost	199,280,535	197,683,461	256,587,053	249,295,095

These investment securities at amortized cost is classified under Level 1 based on market prices or broker/dealer price quotations.

Cash and other cash items and due from BSP and other banks

Due to the short-term nature of these financial instruments, their fair value approximates the carrying amount as at reporting date.

Loan and receivables

Fair value of loans and receivables is estimated by discounting anticipated cash (including interest at contractual rates). Performing loans are grouped, to the possible, into homogenous pools segregated by maturity and the coupon rates of the loans within each pool. In general, cash flows are discounted using current market rates for instruments with similar maturity, repricing and risk characteristics.

For non-performing loans and receivables, an estimate is made of the time period to realize these cash flows and the fair value is estimated by discounting these cash flows at the effective interest rate. For non-

performing loans and receivables where collateral exists, the fair value is the lesser of the carrying value of the loans and receivables net of specific allowances, or the fair value of the collateral, discounted as appropriate.

Based on the methodology described above, the Bank has determined that the carrying values of loans and receivables approximate fair values.

Deposit liabilities

Deposit liabilities is calculated using discounted cash flow models, based on the deposit type and its related maturity, applying either market rates, where applicable or current rates offered for deposits of similar remaining maturities.

Based on the described above, the Bank has determined that the carrying values of deposits by customers approximate fair values.

Other financial assets and liabilities

Carrying amounts of other financial assets and liabilities which have no definite repayment dates are assumed to be their fair values.

20.11 Capital management

The primary objectives of the Bank's capital management are to ensure that the Bank complies with the BSP imposed minimum capital requirements and to maintain healthy capital ratios in order to support its business and to maximize shareholders' value.

Under MORB Section 121, the Bank has complied the minimum capitalization set by the BSP which is P500 million for thrift banks with head office only in Metro Manila.

The Bank also complies with the minimum Capital Adequacy Ratio (CAR) as mandated by the BSP. The risk based CAR of thrift banks expressed as a percentage of qualifying capital to risk-weighted asset, shall not be less than ten percent (10%). Qualifying capital consists of Tier 1 (core plus hybrid) capital and Tier 2 (supplementary) capital elements, net of required deductions from capital.

Tier 1 capital consists of the Bank's total equity excluding net unrealized losses on financial assets at FVOCI, unbooked valuation reserves and other capital adjustments based on latest report of examination as approved by the Monetary Board, total outstanding unsecured loans and credit accommodations, net of allowance for credit losses and deferred tax asset, net of deferred tax liability.

Tier 2 capital consists of general loan loss provision and unsecured subordinated debt. Risk-weighted asset is the assigned risk weight to assets after exclusion of zero percent (0%) risk weight assets such as cash on hand, due from BSP, loans covered by hold-out on or assignment of deposits, loans or acceptances under letters of credit to the extent covered by margin deposits, and other non-risk items as determined by the Monetary Board of the BSP.

Under existing BSP regulations, the determination of the Bank's compliance with regulatory requirements and ratios is based on the amount of the Bank's "unimpaired capital" (regulatory net worth) reported to the BSP, determined on the basis of regulatory accounting policies, which differ from PFRS.

As at December 31, the Bank's CAR is computed as follows:

	2025	2024
	<i>(In Thousands of Pesos)</i>	
Qualifying capital		
Net Tier 1 capital	1,918,876	1,912,780
Net Tier 2 capital	19,831	10,891
Total qualifying capital	1,938,707	1,923,671
Risk weighted assets		
Credit risk weighted assets	2,254,556	1,475,847
Operational risk weighted assets	171,636	154,409
Total risk weighted assets	2,426,192	1,630,256
CAR	79.91%	118.00%

The Bank has fully complied with the minimum CAR requirement of ten percent (10%).

21 Summary of material accounting policies

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to both years presented, unless otherwise stated.

21.1 Basis of preparation

The financial statements of the Bank have been prepared in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards. The term PFRS Accounting Standards in general includes all applicable PFRS, Philippine Accounting Standards (PAS) and Interpretations issued by the former Standing Interpretations Committee (SIC), the Philippine Interpretations Committee (PIC) and the International Financial Reporting Interpretations Committee (IFRIC), which have been approved by the Financial and Sustainability Reporting Standards Council (formerly known as the Financial Reporting Standards Council) and adopted by the SEC.

The Bank's financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at FVOCI.

21.2 Changes in accounting policy and disclosures

(a) Amendments to existing standards adopted by the Bank

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on January 1, 2025 that have a material effect on the financial statements of the Bank.

(b) Amendments to existing standards not yet adopted by the Bank

The following amendments are not mandatory for December 31, 2025 reporting period and have not been early adopted by the Bank:

- *PFRS 18, 'Presentation and Disclosure in Financial Statements'*

This is the new standard on presentation and disclosure in financial statements, which replaces PAS 1, with a focus on updates to the statement of profit or loss.

The key new concepts introduced in PFRS 18 relate to:

- The structure of the statement of profit or loss with defined subtotals;
- Requirement to determine the most useful structure summary for presenting expenses in the statement of profit or loss

- c) Required disclosures in a single note within the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and
 - d) Enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.
- *Amendments to the Classification and Measurement of Financial Instruments - Amendments to PFRS 9 and PFRS 7*

On 30 May 2025, the IASB issued targeted amendments to PFRS 9 Financial Instruments and PFRS 7 Financial Instruments: Disclosures to respond to recent questions arising in practice, and to include new requirements not only for financial institutions but also for corporate entities. These amendments:

- a) Clarify the date of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
- b) Clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
- c) Add new disclosures for certain instruments with contractual terms that can change cash flows (such as some financial instruments with features linked to the achievement of environment, social and governance targets); and
- d) Update the disclosures for equity instruments design.

There are no other new standards, amendments to existing standards, or interpretations that are effective for annual periods beginning on or after January 1, 2025 that are considered relevant or expected to have a material effect on the financial statement of the Bank.

21.3 Financial instruments

21.3.1 Financial assets

21.3.1.1 Date of recognition

Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Bank commits to purchase or sell the asset.

21.3.1.2 Initial recognition and subsequent measurement

At initial recognition, the Bank measures a financial asset at its fair value plus directly attributable transaction costs, except in the case of financial assets recorded at fair value through profit or loss. Immediately after initial recognition, an expected credit loss allowance (ECL) is recognized for financial assets measured at amortized cost and investments in debt instruments measured at FVOCI, as described in Note 21.3.1.4 below, which results in the loss provision being recognized in profit or loss when an asset is newly originated.

When the fair value of financial assets differs from the transaction price on initial recognition, the Bank recognizes the difference as follows:

- When the fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. a Level 1 input) or based on a valuation technique that uses only data from observable markets, the difference is recognized as a gain or loss.
- In all other cases, the difference is deferred and the timing of recognition of deferred day one profit or loss is determined individually. It is either amortized over the life of the instrument, deferred until the instrument's fair value can be determined using market observable inputs, or realized through settlement.

The Bank classifies its financial assets in the following measurement categories: at fair value through profit or loss (FVTPL), fair value through other comprehensive income (FVOCI) and at amortized cost.

As at December 31, 2025 and 2024, the Bank has no financial assets at FVTPL category.

(i) Debt instruments

Debt instruments consist of loans and receivables, due from BSP and other banks, government and corporate bonds and other financial receivables.

Classification and subsequent measurement of debt instruments depend on the Bank's business model for managing the asset and the cash flow characteristics of the asset.

(ii) Equity instruments

Equity instruments consist of investments in proprietary shares of a country club.

Based on these factors, the Bank classifies its financial assets into one of the following measurement categories:

1. Financial assets at amortized cost

The Bank measures financial assets at amortized cost if both of the following conditions are met:

- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding; and
- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows.

The details of these conditions are outlined below:

Business model assessment: The business model reflects how the Bank manages the assets in order to generate cash flows. That is, whether the Bank's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable, then the financial assets are classified and measured at fair value through profit or loss. Factors considered by the Bank in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.

SPPI test: Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Bank assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Bank considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest ('SPPI'), and that are not designated at fair value through profit or loss, are measured at amortized cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognized and measured. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method.

2. Fair value through other comprehensive income (FVOCI)

The Bank measures debt instruments at FVOCI when both of the following conditions are met:

- The instrument is held within a business model, the objective of which is achieved by both collecting contractual cash flows and selling financial assets; and
- The contractual terms of the financial assets meet the SPPI test.

Financial assets at FVOCI are subsequently measured at fair value with gains and losses arising due to changes in fair value recognized in other comprehensive income. Impairment gains or losses, interest revenue and foreign exchange gains and losses on the instrument's amortized cost are recognized in the statement of total comprehensive income. When the financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method. Equity instruments are normally measured at FVTPL. However, for non-traded equity instruments, with an irrevocable option at inception, the Bank measure the changes through FVOCI (without recycling profit or loss upon derecognition).

21.3.1.3 Derecognition

(i) Derecognition due to substantial modification of terms and conditions

The Bank derecognizes a financial asset, such as a loan and receivables, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference between the carrying amounts after and prior to modification recognized as a gain or loss, to the extent that an impairment loss has not already been recorded.

The newly recognized loans are classified as Stage 1 for ECL measurement purposes, unless the new loan is deemed to be purchased or originated credit-impaired ("POCI").

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original effective interest rate ("EIR"), the Bank records a modification gain or loss, to the extent that an impairment loss has not already been recorded. As at December 31, 2025 and 2024, no financial assets were derecognized due to substantial modification of terms and conditions.

(ii) Derecognition other than for substantial modification

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- The rights to receive cash flows from the financial asset have expired; or
- The transfer of financial asset is as set out below and the transfer qualifies for derecognition.

The Bank has transferred the financial asset if, and only if, either:

- The Bank has transferred its contractual rights to receive cash flows from the financial asset; or
- It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement.

Pass-through arrangements are transactions whereby the Bank retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following three conditions are met:

- The Bank has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates;
- The Bank cannot sell or pledge the original asset other than as security to the eventual recipients; and
- The Bank has to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the Bank is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients.

A transfer only qualifies for derecognition if either the Bank has:

- Transferred substantially all the risks and rewards of the asset; or
- Neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

The Bank considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Bank has neither transferred nor retained substantially all the risks and rewards and have retained control of the asset, the asset continues to be recognized only to the extent of the Bank's continuing involvement, in which case, the Bank also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Bank has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration the Bank could be required to pay.

If continuing involvement takes the form of a written or purchased option (or both) on the transferred asset, the continuing involvement is measured at the value the Bank would be required to pay upon repurchase. In the case of a written put option on an asset that is measured at fair value, the extent of the entity's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

21.3.1.4 Impairment of financial assets

The Bank assesses on a forward-looking basis the expected credit losses ('ECL') associated with its debt instrument assets carried at amortized cost and FVOCI and with the exposure arising from loan commitments. The Bank recognizes a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

PFRS 9 outlines a 'three-stage' model for impairment based on changes in credit quality since initial recognition as summarized below:

- A financial instrument that is not credit-impaired on initial recognition is classified in "Stage 1" and has its credit risk continuously monitored by the Bank.
- If a significant increase in credit risk since initial recognition is identified, the financial instrument is moved to "Stage 2" but is not yet deemed to be credit-impaired. The Bank determines SICR based on prescribed benchmarks approved by the Board of the Directors.
- If the financial instrument is credit-impaired, the financial instrument is then moved to "Stage 3".
- Financial instruments in Stage 1 have their ECL measured at an amount equal to the portion of lifetime expected credit losses that results from default events possible within the next 12 months. Instruments in Stages 2 or 3 have their ECL measured based on expected credit losses on a lifetime basis.
- A pervasive concept in measuring ECL in accordance with PFRS 9 is that it should consider forward-looking information.
- Purchased or originated credit-impaired (POCI) financial assets are those financial assets that are credit impaired on initial recognition. Their ECL is always measured on a lifetime basis (Stage 3). There are no POCI as at December 31, 2025 and 2024.

The following diagram summarizes the impairment requirements under PFRS 9 (other than purchased originated credit-impaired financial assets):

The Bank uses the following key judgements and assumptions when estimating expected credit losses in accordance with PFRS 9:

(i) Determination of significant increase in credit risk (SICR)

The assessment of significant deterioration since initial recognition is key in establishing the point of switching between the requirement to measure an allowance based on 12-month ECL and one that is based on lifetime ECL. The quantitative and qualitative assessments are required to estimate the significant increase in credit risk by comparing the risk of a default occurring on the financial assets as at reporting date with the risk of default occurring on the financial assets as at the date of initial recognition.

(ii) Measuring ECL – Inputs, assumptions and estimation techniques

The ECL is measured on either a 12-month or lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired. Expected credit losses are the discounted product of the probability of default (PD), exposure at default (EAD) and loss given default (LGD), defined as follows:

- The PD represents the likelihood that the borrower will default (as per “Definition of default and credit-impaired” above), either over the next 12 months (12M PD), or over the remaining life (lifetime PD) of the asset. The estimation of PD for consumer loans is based on the Bank’s aging reports with the incorporation of forward-looking economic information. While for corporate loans and investment in debt securities, PD is calculated based on default rate tables published by external credit rating agencies, incorporating forward-looking information.
- EAD is based on the amounts the Bank expects to be owed at the time of default, over the next 12 months (12M EAD) or over the remaining life (lifetime EAD). The 12-month and lifetime EADs are determined based on the contractual repayments owed by the borrower over a 12-month or lifetime basis.
- LGD represents the Bank’s expectation of the extent of loss on a defaulted exposure. They are grouped according to type (corporate or consumer). For consumer loans, the LGD is calculated based on the historical recovery experience. For corporate loans and investments in debt instruments, the LGD is calculated based on the collateral and liquidity preference of the debt instrument, incorporating the average recovery rate disclosed by external credit rating agencies.

The ECL is determined by multiplying the PD, LGD and EAD together for each individual exposure or collective segment. This effectively calculates an ECL for each future year, which is then discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

There have been no significant changes in estimation techniques or significant assumptions made during the reporting period.

(iii) Expected life

Lifetime expected credit losses must be measured over the expected life. This is restricted to the maximum contractual life and takes into account expected prepayments, extensions, calls and similar options.

(iv) Investment securities at FVOCI

The ECLs for financial investments measured at FVOCI do not reduce the carrying amount of these financial assets in the statement of financial position, which remains at fair value. Instead, an amount equal to the allowance that would arise if the assets were measured at amortized cost is recognized in OCI as an accumulated impairment amount, with a corresponding charge to profit or loss. The accumulated loss recognized in OCI is recycled to the profit and loss upon derecognition of the assets.

(v) Forward-looking information incorporated in the ECL models

The Bank incorporates historical and current information, and forecasts forward-looking events and key economic variables that are assessed to impact credit risk and expected credit losses for each portfolio. Macroeconomic variables that affect a specific portfolio's non-performing loan rate(s) are determined through statistical modelling and the application of expert judgment. The probability-weighted ECL is calculated by running each scenario through the relevant ECL models and multiplying it by the appropriate scenario weighting.

The estimation and application of forward-looking information requires significant judgment. As with any economic forecasts, the projections and likelihood of occurrences are subject to a high degree of inherent uncertainty and therefore the actual outcomes may be significantly different to those projected. The scenarios and their attributes are reassessed at each reporting date. Information regarding the forward-looking economic variables and the relevant sensitivity analysis is disclosed in Note 20.3.

(vi) Valuation of collateral held as security for financial assets

The Bank's accounting policy for collateral assigned to it through its lending arrangements under PFRS 9.

21.3.1.5 Reclassification of financial assets

The Bank reclassifies debt investments when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the period.

21.3.2 *Financial liabilities*

21.3.2.1 Date of recognition

All financial liabilities are initially recognized on trade date (i.e. the date that the Bank becomes a party to the contractual provision of the instruments).

The Bank classifies its financial liabilities at amortized cost. As at December 31, 2025 and 2024, the Bank has no financial liabilities that are designated at fair value through profit loss.

1. Other liabilities measured at amortized cost

Financial liabilities measured at amortized cost include deposit liabilities, accrued interest and other expenses, interbank loans payable, and other liabilities, primarily accounts payable.

21.3.2.2 Initial recognition and subsequent measurement

Financial liabilities at amortized cost are initially recognized at fair value plus transaction costs.

Financial liabilities are subsequently measured at amortized cost using the effective interest method.

21.3.2.3 Derecognition

Collateral (shares and bonds) furnished by the Bank under standard repurchase agreements and securities lending and borrowing transactions is not derecognized because the Bank retains substantially all the risks and rewards on the basis of the predetermined repurchase price, and the criteria for derecognition are therefore not met.

21.4 Fair value measurement

The fair value of financial and non-financial liabilities takes into account non-performance risk, which is the risk that the entity will not fulfill an obligation.

Financial instruments

The appropriate level is determined on the basis of the lowest level input that is significant to the fair value measurement.

- For financial instruments traded in active markets, the determination of fair values of financial assets and financial liabilities is based on quoted market prices or dealer price quotations. This includes listed equity securities and quoted debt instruments on major exchanges and broker quotes mainly from PDEX and Bloomberg.
- A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. If the above criteria are not met, the market is regarded as being inactive. Indications that a market is inactive are when there is a wide bid-offer spread or significant increase in the bid-offer spread or there are few recent transactions.
- For all other financial instruments, fair value is determined using valuation techniques. In these techniques, fair values are estimated from observable data in respect of similar financial instruments, using models to estimate the present value of expected future cash flows or other valuation techniques, using inputs (for example, FX rates, volatilities and counterparty spreads) existing at reporting dates. The Bank uses widely recognized valuation models for determining fair values of non-standardized financial instruments of lower complexity. For these financial instruments, inputs into models are generally market observable.

The fair value for loans and receivables as well as liabilities to customers are determined using a present value model on the basis of contractually agreed cash flows, taking into account credit quality, liquidity and costs.

Non-financial assets or liabilities

The Bank uses valuation techniques that are appropriate in the circumstances and applies the technique consistently. Commonly used valuation techniques are as follows:

- Market approach - A valuation technique that uses observable inputs, such as prices, broker quotes and other relevant information generated by market transactions involving identical or comparable assets or group of assets.
- Income approach - A valuation technique that converts future amounts (e.g., cash flows or income and expenses) to a single current (i.e., discounted) amount. The fair value measurement is determined on the basis of the value indicated by current market expectations about those future amounts.
- Cost approach - A valuation technique that reflects the amount that would be required currently to replace the service capacity of an asset (often referred to as current replacement cost).

The fair values are determined in reference to observable market inputs reflecting orderly transactions, i.e. market listings, published broker quotes and transacted deals from similar and comparable assets, adjusted to determine the point within the range that is most representative of the fair value under current market conditions.

21.5 Bank premises, furniture, fixtures and equipment

Bank premises, furniture, fixtures and equipment are stated at historical cost less accumulated depreciation and impairment loss, if any. Expenses that provide incremental future economic benefits to the Bank are added to the carrying amount of an item of bank premises, furniture, fixtures and equipment.

Depreciation of bank premises, furniture, fixtures and equipment commences once the property and equipment are available for use and computed using the straight-line basis over the estimated useful lives of property and equipment as follows:

	Number of years
Bank premises	25-50
Furniture, fixtures and equipment	3-5
Transportation and equipment	5
Leasehold improvement	5 or lease term; whichever is shorter

The useful lives and depreciation method are reviewed at each reporting date to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of bank premises, furniture, fixtures and equipment.

When bank premises, furniture, fixtures and equipment are retired or otherwise disposed of, the cost of the related accumulated depreciation and accumulated provision for impairment losses, if any, are removed from the accounts and any resulting gain or loss is credited to or charged against current operations. Fully depreciated bank premises, furniture, fixtures and equipment are retained in the accounts until they are no longer in use and no further depreciation and amortization is charged against current operations.

21.6 Computer software

Computer software is carried at cost less any accumulated amortization and any accumulated impairment losses. Computer software is amortized over the useful or economic life, and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and method is reviewed at least at each reporting date. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates.

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and install the specific software. These costs are amortized on the basis of the expected useful lives of five (5) years. Costs associated with maintaining computer software are expensed as incurred. The assets are derecognized when there is no future economic benefit associated with its continuing use.

21.7 Impairment of non-financial assets

At each reporting date, the Bank reviews the carrying amounts of bank premises, furniture, fixtures and equipment and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When the asset does not generate cash flows that are independent from other assets, the Bank estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognized as an expense immediately.

When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is recognized as income.

21.8 Income taxes

The tax expense for the period comprises current and deferred tax.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill; deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable income.

At each reporting date the Bank reassess the need to recognize previously unrecognized deferred income tax asset.

Deferred income tax assets are recognized for all deductible temporary differences, carryforward benefits of unused tax credits from excess of minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that sufficient future taxable profits will be available against which the deductible temporary differences, carryforward benefits of unused tax credits from excess of MCIT over RCIT and unused NOLCO can be utilized. Deferred income tax liabilities are recognized for all taxable temporary differences.

21.9 Retirement benefit obligation

The Bank provides defined benefit retirement plan for all regular and qualified employees. The retirement plan is generally funded through payments to a trustee bank determined by periodic actuarial calculations.

The retirement benefit that an employee will receive on retirement under a defined benefit plan is dependent on several factors such as age, years of service and compensation. The Bank's defined benefit retirement plan provides a retirement benefit equivalent to one hundred percent (100%) of plan salary for every year credited service for qualified employees.

The liability in respect of defined benefit retirement plans is the present value of the defined benefit obligation less the fair value of plan assets at the end of the reporting period. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related retirement obligation.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in profit or loss.

Remeasurement comprising actuarial gains and losses, return on plan asset and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) is recognized immediately in other comprehensive income in the period in which they arise. Remeasurement is not reclassified to profit or loss in subsequent periods. Remeasurement recognized in other comprehensive income account "Remeasurement gains (losses) on retirement plan" is not reclassified to another equity account in subsequent periods. The difference between the interest income component of net interest and the actual return on plan asset is recognized in other comprehensive income.

Past-service costs are recognized immediately in the statement of comprehensive income.

21.10 Interest income and expense

Interest income is calculated by applying the effective interest rate to the gross carrying amount of financial assets, except for:

- POCI financial assets, for which the original credit-adjusted effective interest rate is applied to the amortized cost of the financial asset.
- Financial assets that are not 'POCI' but have subsequently become credit-impaired (or 'Stage 3'), for which interest revenue is calculated by applying the effective interest rate to their amortized cost (i.e. net of the expected credit loss provision).

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of a financial asset (i.e. its amortized cost before any impairment allowance) or to the amortized cost of a financial liability. The calculation does not consider expected credit losses and includes transaction costs, premiums or discounts and fees and points paid or received that are integral to the effective interest rate, such as origination fees. For purchased or originated credit-impaired ('POCI') financial assets – assets that are credit-impaired at initial recognition – the Bank calculates the credit-adjusted effective interest rate, which is calculated based on the amortized cost of the financial asset instead of its gross carrying amount and incorporates the impact of expected credit losses in estimated future cash flows.

When the Bank revises the estimates of future cash flows, the carrying amount of the respective financial assets or financial liability is adjusted to reflect the new estimate discounted using the original effective interest rate. Any changes are recognized in profit or loss.

21.11 Service charges and fees

Service charges and fees are recognized when (or as) the Bank satisfies a performance obligation by transferring a promised good or service to a customer (i.e. an asset). An asset is transferred when (or as) the customer obtains control of that asset.

The recognition of revenue can be either over time or at a point in time depending on when the performance obligation is satisfied.

When control of a good or service is transferred over time, that is, when the customer simultaneously receives and consumes the benefits, the Bank satisfies the performance obligation and recognizes revenue over time. Otherwise, revenue is recognized at the point in time at the point of transfer control of the good or service to the customer.

21.12 Expense recognition

Expenses in the statement of total comprehensive income are presented using the functional method.

22 Supplemental information required under BSP Circular No. 1074

Presented below are the additional information required by BSP Circular No. 1074 issued on January 8, 2020. This information is presented for BSP reporting purposes and is not required in the basic financial statements.

22.1 Basic quantitative indicators of financial performance

The key financial performance indicators follow (in %):

	2025	2024
Return on average equity		
- Simple average ¹	(1.96%)	(1.53%)
Return on average assets		
- Simple average ²	(1.38%)	(1.17%)
Net interest margin		
- Simple average ³	4.79%	5.17%

¹Net income divided by average total equity for the period indicated. Average total equity is based on the year-on-year balance of equity for the years ended December 31, 2025 and 2024.

²Net income divided by average total assets as at period indicated. Average total assets is based on the year-on-year balance of total assets as at December 31, 2025 and 2024.

³Net interest income divided by average interest-earning assets. Average interest earning assets is based on the year-on-year balance of interest earning assets as at December 31, 2025 and 2024.

22.2 Description of capital instrument issued

The Bank considers its common shares as capital instrument for purposes of calculating its capital adequacy ratio as at December 31, 2025 and 2024.

22.3 Significant credit exposures

Details of the loans and receivables portfolio as to concentration as to industry/economic sector (in %) at December 31 are as follows:

	2025	2024
Community, social and personal activities	0.02	0.10
Service activities	20.10	17.92
Agriculture, forestry and fishing	18.44	4.62
Wholesale and retail, trade, repair of motor vehicles and motorcycles	9.94	0.49
Real estate, renting and business activities	6.89	7.00
Financial institution	44.61	69.87
	100.00	100.00

22.4 Breakdown of total loans

Details of the loans and receivables portfolio at December 31 as to collateral (amounts net of unearned discounts and exclusive of accrued interest receivable and accounts receivable) are as follows:

	2025	2024
Secured by:		
Real estate	132,253,476	71,709,809
	132,253,476	71,709,809
Unsecured	1,885,255,178	1,053,264,984
	2,017,508,654	1,124,974,793

Details of the loans and receivables portfolio at December 31 as to status (amounts net of unearned discounts and exclusive of accrued interest receivable and accounts receivable) are as follows:

	2025		Total
	Performing	Non-Performing	
Corporate	1,872,194,298	34,108,431	1,906,302,729
Individual	8,315,769	-	8,315,769
Housing	102,424,316	-	102,424,316
Salary	256,667	209,173	465,840
	1,983,191,050	34,317,604	2,017,508,654

	2024		Total
	Performing	Non-Performing	
Corporate	1,006,000,000	34,108,431	1,040,108,431
Individual	6,704,576	1	6,704,577
Housing	77,042,491	-	77,042,491
Auto Loan	-	6	6
Salary	878,069	241,219	1,119,288
	1,090,625,136	34,349,657	1,124,974,793

Breakdown of performing and non-performing loans, net of allowance for credit losses, are as follows:

	2025	2024
Non-performing accounts (NPL)	34,317,604	34,349,657
Allowance attributable to NPL	(34,317,604)	(34,349,657)
Net NPL	-	-

BSP Circular 941, *Amendments to Regulations on Past Due and Non-Performing Loans*, states that loans, investments, receivables, or any financial asset shall be considered non-performing, even without any missed contractual payments, when it is considered impaired under existing accounting standards, classified as doubtful or loss, in litigation, and if there is an evidence that full repayment of principal and interest is unlikely without foreclosure of collateral. All other loans, even if not considered impaired, shall be considered non-performing if any principal and/or interest are unpaid for more than ninety (90) days from contractual due date, or accrued interests for more than ninety (90) days have been capitalized, refinanced, or delayed by agreement.

Microfinance and other small loans with similar credit characteristics shall be considered non-performing after contractual due date or after they have become past due.

Restructured loans shall be considered non-performing. However, if prior to restructuring, the loans were categorized as performing, such classification shall be retained.

22.5 Information on related party loans

Details of DOSRI loans are as follows:

	2025	2024
Outstanding DOSRI loans	222,222	647,569
% to total outstanding loans and advances	0.01%	0.06%
% to total outstanding DOSRI loans		
Unsecured DOSRI loans	100%	100%
Past due DOSRI loans	-	-
Non-performing DOSRI loans	-	-

The Bank is in full compliance with the General Banking Act and the BSP regulations on DOSRI loans as at December 31, 2025 and 2024.

22.6 Secured liabilities and assets pledged as security

As at December 31, 2025, government securities amounting to P146.63 million (2024 - P865.10 million) are used as security for total credit lines. (Note 4).

22.7 Contingencies and commitments arising from off-balance sheet items

There are P300 million and P29 million credit exposure relating to off-balance sheet item as at December 31, 2025 and 2024, respectively.

As at December 31, 2025 and 2024, the Bank has unused credit lines with various depository banks amounting to P417.30 million and P680 million, respectively.

23 Supplementary information required by the Bureau of Internal Revenue (BIR)

Below is the additional information required by Revenue Regulation (RR) No. 15-2010 that is relevant to the Bank. This information is presented for purposes of filing with the BIR and is not a required part of the basic financial statements.

23.1 Documentary stamp taxes

Documentary stamp taxes paid for the year ended December 31, 2025 amount to P17,400,000.

23.2 Withholding taxes

Withholding taxes paid and accrued for the year ended December 31, 2025 consist of:

	Paid	Accrued	Total
Income taxes withheld on compensation	5,936,545	176,781	6,113,326
Final income taxes withheld on interest on deposits and yield on deposit substitutes	4,612,537	493,090	5,105,627
Creditable income taxes withheld (expanded)	1,219,810	80,007	1,299,817
Fringe benefit tax	1,236,971	458,857	1,695,828
	13,005,863	1,208,735	14,214,598

23.3 All other local and national taxes

Local and national taxes paid and accrued for the year ended December 31, 2025 consist of:

	Paid	Accrued	Total
Gross receipts tax	5,421,765	2,014,000	7,435,765
Real property tax	636,829	-	636,829
Municipal taxes	348,446	-	348,446
Deficiency taxes	-	-	-
Others	487,672	-	487,672
	6,894,712	2,014,000	8,908,712

23.4 Tax cases and assessments

On April 11, 2025, the Bank received a Letter of Authority (LOA) from the BIR to examine the books and other accounting records for all internal revenue taxes, including documentary stamp taxes and other/miscellaneous taxes, for the period from January 1 to December 31, 2023. As at December 31, 2025, the Bank has not received any final assessment.
